

Press Release, September 10, 2021

## **Diamyd Medical changes date for publication of year-end report**

Diamyd Medical AB's year-end report for the financial year 2020/2021 will due to the directed share issue announced on September 10, be published on Wednesday 13 October 2021 instead of 6 October 2021 as previously announced.

### **About Diamyd Medical**

Diamyd Medical develops precision medicine therapies for type 1 diabetes. The diabetes vaccine Diamyd<sup>®</sup> is an antigen-specific immunotherapy for the preservation of endogenous insulin production. Significant results have been shown in a large genetically predefined patient group in a large-scale meta-analysis as well as in the Company's European Phase IIb trial DIAGNODE-2, where the diabetes vaccine was administered directly into a lymph node in children and young adults with recently diagnosed type 1 diabetes. Preparations for a confirmatory Phase III trial in the US and Europe are on-going, to start recruiting patients later in 2021. A vaccine manufacturing facility is being set up in Umeå for the manufacture of recombinant GAD65, the active ingredient in the therapeutic diabetes vaccine Diamyd<sup>®</sup>. Diamyd Medical also develops the GABA-based investigational drug Remygen<sup>®</sup> as a therapy for regeneration of endogenous insulin production and to improve hormonal response to hypoglycaemia. An investigator-initiated Remygen<sup>®</sup> trial in patients living with type 1 diabetes for more than five years is ongoing at Uppsala University Hospital. Diamyd Medical is one of the major shareholders in the stem cell company NextCell Pharma AB.

Diamyd Medical's B-share is traded on Nasdaq First North Growth Market under the ticker DMYD B. FNCA Sweden AB is the Company's Certified Adviser; phone: +46 8-528 00 399, e-mail: [info@fnca.se](mailto:info@fnca.se)
