

## Asetek Receives confirmation of HPC award from Quanta Computer

**April 25, 2018** – Asetek today received confirmation of an award from new OEM partner Quanta Computer of Taoyuan, Taiwan, for the National Center for High-Performance Computing (NCHC) in Hsinchu. The new cluster will focus on artificial intelligence (AI), and will be the largest supercomputer in Taiwan when commissioned.

The award has a value of approximately USD 500,000 with delivery schedule to be confirmed.

“We are very pleased to include Quanta Computer as an OEM partner. Developing strong partnerships is a key component of our strategy to develop the emerging data center market,” said André Sloth Eriksen, CEO and founder of Asetek. “We are now involved in the construction of the largest supercomputers in Taiwan and Japan, which confirms the strength of our liquid cooling solutions when combined with the right partners.”

This will be the second Asetek cluster installed at NCHC. The first installation was ranked no. 95 on the Top 500-list of the largest supercomputers in November of last year.

### **About Asetek**

Asetek is the global leader in liquid cooling solutions for data centers, servers and PCs. Founded in 2000, Asetek is headquartered in Denmark and has operations in California, Texas, China and Taiwan. Asetek is listed on the Oslo Stock Exchange (ASETEK).
