Nikolaj Sørensen, President and CEO, said: *"I am pleased to announce that we have further enhanced our patent protection of ZUBSOLV® with a new patent granted in the US. Strong patent protection is the foundation on which we finance and develop new innovative products to the benefit of patients and society. We continue to obtain strong patent protection of our products, and the quality of our patents was demonstrated in 2018 by the US Court of Appeals for the Federal Circuit when one of our ZUBSOLV® patents was found valid and infringed by a generic company. With this new patent we stand even stronger and are well positioned to continue to play an important role in helping patients suffering from opioid addiction."*
