

## PRESS RELEASE

Halmstad 10 February, 2017

### Power production in January 69.9 GWh

Normal winds in January resulted in a power production of 69.9 GWh, compared to the month's budget of 70.1 GWh.

Of this 28.9 GWh refers to Own wind power production and 41.0 GWh to Co-owned windpower production, compared to the month's budget of 36.0 GWh and 34.1 GWh.

After careful analysis of the production distribution over the year, Arise has chosen to update the monthly budget allocation for the wholly-owned wind farms. The annual budget is unchanged.
