

PRESS RELEASE

from Pricer AB (publ) July 31st 2012

Pricer wins the largest project ever in the market

- The estimated value exceeds SEK 300M

One of the 15 largest retail chains in the world, with its base in France, has selected the Pricer solution of price- and information systems for deployment in its stores throughout France. The project covers initially over 600 stores of several store formats and includes both new installations and upgrading. The total estimated value of the project exceeds SEK 300M. The installations in France are due to start in Q3 2012 and the goal is to complete the rollout within three to five years.

In terms of number of stores, this is the largest project ever assigned to a supplier of electronic shelf labels (ESL).

The customer also has the intention to deploy the Pricer solution in its chains in other parts of the world, such as South America and Asia.

“The customer has been using our solution since 2004 and was now looking for a modern system that will be the basis for implementing pricing strategies as well as bringing operational efficiency to the shop floor” says Fredrik Berglund, CEO of Pricer. “The retailer did full scale pilot installations with all the leading ESL manufacturers and we are proud to note that the customer experienced that our solution best respond to their needs”.
