Bong is one of the leading providers of envelope products in Europe that also offers solutions for distribution and packaging of information, advertising materials and lightweight goods. Important growth areas in the Group are packaging within retail and e-commerce and the envelope market within Eastern Europe. The Group has annual sales of approximately SEK 1.8 billion and about 970 employees in 13 countries. Bong has strong market positions in most of the important markets in Europe and the Group sees interesting possibilities for continued development. Bong is a public limited company and its shares are listed on Nasdaq Stockholm (Small Cap).

LETTER TO THE SHAREHOLDERS

MARKET AND INDUSTRY

Also in the third quarter of 2026 the challenges continued. Energy prices, especially electricity, kept rising or stayed at very high levels. It is not foreseeable when we will see lower and more predictable conditions in the energy market. That situation makes it difficult for all industrial production businesses. Transport costs remain still high and will increase even more in the next twelve months. This situation is due to high fuel costs and to scarce transport capacity in Europe because of an enormous lack of truck drivers for many years already. Paper prices went up again in the third quarter and will probably remain at this high level.

Light Packaging

In the first three quarters 2026 our combined sales in Light packaging were at YTD +1,8% vs. 2025. One of our best performing segments was Bubble Mailers with YTD +9,8%. Bubble Mailers is a product range which is used substantially for online sales and distribution. In 2025 and 2026 Bong was investing into two new additional high speed production lines for Bubble Mailers in Poland and in the UK and this investment is paying off now.

Envelope

The political focus on digitalization such as mandatory e-invoicing and the trend towards digital advertising channels leads to a continuously reduced demand in envelopes. In the first nine months European envelope sales went down by -3,6% which is still better than the development in previous years. Bong is approximately in line with this European trend. Therefore, we decided to strongly reduce our fixed costs through streamlining our envelope production and reducing the number of envelope production sites until December 2027. The forecast for the European market is around 31 billion envelopes in 2026 which is still an interesting mass market for Bong. Bong remains one of the top two European players and envelopes still are an important factor in its product portfolio.

OPERATING PROFIT

The Group's currency-adjusted sales in Q3 2026 decreased by -3,9% compared with ytd Q3 2025 mainly because of lower prices related to price pressure but also to the market decline in the envelope segment. As a result of the price pressure Bong's gross margin has significantly decreased compared to ytd Q3 2025. Operating profit decreased to SEK -5 million (3).

The operating profit in Q3 2026 was not affected negatively by restructuring cost (0) and machine sales have had no impact on the operating profit (4).

"In order to remain competitive also in the future Bong will streamline its production operations in the envelope segment until December 2027. This includes a strong fixed cost reduction and focus on fewer but more efficient envelope sites, producing for several national markets in Europe. This will strengthen Bong without losing flexibility and reactivity for our customers", says Bong's CEO Kai Steigleder.

CASH FLOW AND ADJUSTED NET DEBT / ADJUSTED EBITDA

Cash flow from operating activities amounted to SEK -11 million (52). Adjusted net debt / adjusted EBITDA according to Bong's Bond loan amounts to 0.78 (1.64).

FOCUS AND STRATEGY

Bong remains focused on its road of transition to become a Light Packaging company with a 50% share in its total sales. We will shrink and adapt our envelope production capacity to cut overall fixed costs and remain competitive.

Finally, I am thanking all our loyal and hard-working employees that will make our transformation process in Bong happen as well as all our stakeholders and shareholders for their continuous support.

No material events have occurred after the end of the period.

New Rights Issue

In July 2026, Bong completed a rights issue of 211,205,058 shares at a subscription price of SEK 0.30 per share. The rights issue was subscribed to approximately 101 percent and provided the Company with approximately SEK 63.4 million before transaction costs, of which SEK 9.1 million was settled through set-off of liabilities. In addition, 7,710,397 shares were issued to the guarantor as remuneration for the guarantee commitment. Following the issues, the total number of shares and votes in Bong amounts to 430,120,513.

The purpose of the rights issue was to optimize Bong's capital structure and provide financial flexibility to pursue strategic initiatives aimed at strengthening the Group's market position and long-term value creation.

As the rights issue contained a bonus element, the weighted average number of shares and historical per-share information have been adjusted retrospectively in accordance with IAS 33. Consequently, previously reported comparative figures for earnings per share and other historical per-share measures have been restated.

Risks and opportunities

Business risks for the Bong Group are primarily related to market development and various types of financial risks. There has not been any change to significant risks and uncertain positions since Bong's annual report for 2025 was released. For further information, please refer to Bong's annual report and website bong.com.

Accounting policies

This Interim report has been prepared in accordance with IAS 34, Interim Financial Reporting, and the Swedish Annual Accounts Act. Application was consistent with the accounting principles outlined in the 2025 annual report and the interim report should be read along with those principles. The figures in this interim report have not been rounded off, which is why notes and tables may not total correct amounts. The purpose is that each sub-row should correspond to its source of origin and therefore rounding differences can occur on the total sum.

Auditor's report on review of interim financial information established in accordance with IAS 34 and Chapter 9 of the Annual Accounts Act (1995:1554).

To the Board of Directors of Bong AB, 556034-1579

Introduction

We have reviewed the condensed interim financial information (interim report) of Bong AB as of 30 September 2026 and the nine-month period then ended. The board of directors and the CEO are responsible for the preparation and presentation of the interim financial information in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Report Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, ISA, and other generally accepted auditing standards in Sweden.

The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act, regarding the Group, and with the Swedish Annual Accounts Act, regarding the Parent Company.

DEFINITIONS

This Report includes financial key data and ratios based on concepts defined in International Financial Reporting Standards (IFRS), Alternative Performance Measurements and company-specific ratios. Definitions are found below.

For historical values:
http://www.bong.com/en/investors/reports/historical-values

ADJUSTED EARNINGS PER SHARE
Profit after tax, excluding items affecting comparability, divided by the average number of shares before and after dilution.

ADJUSTED P/E RATIO, TIMES
Share price divided by adjusted earnings per share before and after dilution.

AVERAGE CAPITAL EMPLOYED
Capital employed at the beginning of year plus capital employed at year-end divided by two.

AVERAGE EQUITY
Shareholders' equity at beginning of year plus equity at year-end divided by two.

AVERAGE TOTAL ASSETS
Total assets at beginning of the year plus total assets at year-end divided by two.

CAPITAL EMPLOYED
Equity plus interest-bearing liabilities.

EARNINGS PER SHARE
Profit after tax, divided by the average number of shares, before and after dilution.

EBITDA
Operating income before depreciation and amortization.

EQUITY TO ASSETS RATIO, PER CENT
Shareholders' equity divided by total assets. This ratio is a measure of the Group's financial strength.

ITEMS AFFECTING COMPARABILITY
Items of infrequent nature with significant effects, which are relevant for understanding the financial performance when comparing the current period with previous periods. Such items may include but are not limited to results from divestments of property, charges attributable to close-down or restructuring of major units or activities, significant write-downs of tangible and intangible assets and other major non-recurring costs or income.

NET DEBT
Interest-bearing liabilities and provisions less liquid funds and interest-bearing receivables.

NET DEBT/EBITDA, TIMES
Net debt divided by EBITDA. Net debt/EBITDA is a measure of the Group's financial strength.

NET DEBT TO EQUITY, TIMES
Net debt divided by equity. This ratio is a measure of the Group's financial strength.

OPERATING MARGIN, PER CENT
Operating profit divided by net sales. Operating margin is a measure of profitability. It measures how much of revenues remains after operating expenses.

P/E RATIO, TIMES
Share price divided by earnings per share.

RETURN ON CAPITAL EMPLOYED, PER CENT
Earnings after financial income divided by average capital employed. This measure of profitability shows the return of the Group's total balance sheet, less non interest-bearing debt. It is a measure independent of indebtedness. It complements the measure return on equity.

RETURN ON EQUITY, PER CENT
Earnings after tax divided by average equity. This measure measures the return on shareholders' funds for the year and is useful in comparisons of other investments with the same risk profile.

SHARE PRICE/EQUITY, PER CENT
Price per share divided by equity per share.
