

Create spellbinding Halloween scenes with NEW Buttonlites

Halloween is fast approaching, which means it's time to start plotting a spooky soiree. Leave your guests and trick-or-treaters astounded with eerie Halloween displays created using new Buttonlites.

Buttonlites are small, battery powered super bright LED lights which can be used to cost effectively create big impact decorative light displays for your party, event or celebration. Buttonlites Candle Flicker effect are the ideal wire free lighting solution for visually striking Halloween displays, whether you wish to craft shadowy floral centerpieces, illuminate carved pumpkins or hang in gothic lanterns.

"It's the time of year when goblins, ghosts and ghouls come alive and homes all over the UK are transformed into haunted houses. Dress up your home in the spirit of the season by adding Buttonlites to cobwebs, ragged-looking fabric, freaky floral displays and hanging lanterns for maximum fright factor," suggests Rob Payne, Creator of Buttonlites.

"Buttonlites are wire free, so you can create atmospheric lighting effects without having to worry about the nearest plug socket," continues Rob. *"Buttonlites also provide the benefits of natural candle light but without the fire or smoke hazard, so they're extremely safe in floral displays and inside hollowed pumpkins."*

Buttonlites come ready to use with batteries already installed and each unit has a pull/push tab to enable users to switch the light on/off as many times as required. With a battery life of 36-48 hours (battery is not replaceable), Buttonlites are long lasting. The product features wide angle LED bulbs and diffuser caps to ensure even light distribution, creating a bright but soft ambient glow.

The recommended retail price for a single Buttonlite Candle Flicker is £2.49. They can also be purchased in packs of 10 with a recommended retail price of £22.89 (£2.29 each).

**Buttonlites can be purchased via a number of online UK retailers, including
The Hanging Lantern Company (www.hanginglanterns.co.uk).**

For a full list of UK retailers please visit the distributors page on www.buttonlites.com.
