

## PA Resources' Production Report for April 2012

### Average production of oil per day\*

(barrels per day)	Year to Date 2012	April 2012
West Africa	<b>6,100</b>	5,700
North Africa	<b>2,600</b>	2,700
<b>Group Total</b>	<b>8,700</b>	<b>8,400</b>

\* Production based on Working Interest, which is PA Resources' share of the total gross production of the oil fields before deduction of royalty and taxes etc. Production figures are preliminary.

- The production level at the Aseng Field in Equatorial Guinea exceeded 60,000 barrels per day in April (approximately 3,500 barrels per day net to PA Resources) and all the five production wells contributed to the field's production. Aseng has produced in total 10 million barrels of oil since the production start in November 2011, of which 600,000 barrels to PA Resources.
- Annual maintenance work is ongoing on the Azurite Field in Republic of Congo and production was shut-down briefly twice in late April. Another shut-down for maintenance work will also take place in late May and is expected to last one week. The technical and economic analysis continues regarding possible remedial options to increase the production in the well which has produced on minimal levels since February.
