Julian T. Ross, Chairman and CEO of OxySure stated: "This has been a good building quarter for us. We were able to bring strong management to the opportunities and challenges along the way and we are pleased with the exemplary results."

OxySure pioneered a safe and easy to use solution to produce medically pure oxygen from two dry, inert powders. The company owns numerous issued patents and patents pending on this technology which makes the provision of emergency oxygen safer, more accessible and easier to use than traditional oxygen provision systems. OxySure's products improve access to emergency oxygen that affects the survival, recovery and safety of individuals in several areas of need: (1) Public and private places and settings where medical emergencies can occur; (2) Individuals at risk for cardiac, respiratory or general medical distress needing immediate help prior to emergency medical care arrival; and (3) Those requiring immediate protection and escape from exposure situations or oxygen-deficient situations in industrial, mining, military, or other "Immediately Dangerous to Life or Health" (IDLH) environments. *In addition to oxygen products for public/lay responder usage, OxySure also markets emergency medical solutions including AEDs (Cardiac Science, Philips, Zoll, Physio Control, Defibtech, and HeartSine), Quickclot Bleeding Control solutions, resuscitation products and pulse oximetry products.*

### **3Q 2015 Results Highlights Included:**

- Total revenue up 39% to \$1,138,380 (3 months)

- Revenue run rate approaching \$5 million
- On track for revenue run rate of \$10 million in 2016
- On track for breakeven in 2016

When asked about future plans, Ross stated: “Looking forward, we remain on track with the launch of at least one new solution in 2015,” added Ross. “Also, we have started working with our medical advisors on laying the ground work for our direct to consumer campaign addressing “At Risk” markets such as Asthma and Immunology markets. We expect to continue our efforts to grow our direct sales force. We have made additional progress and will be continuing our work on the Nasdaq uplisting process. Finally, our growth plan is working and our investments are paying dividends. We are especially excited about working towards one of our next key milestones, which is to reach the \$10 million revenue run rate number and breakeven some time in 2016.”
