

## Castellum acquires classic office building in Helsinki

**Castellum has today acquired a historic office building in Helsinki, located in one of the city's most dynamic developing areas. The acquisition price amounts to Eur 23,7 million including expenses of approximately Eur 0,7 million.**

The acquisition regards Hämeentie 15, a historic and strategically located office property in the Sörnäinen district, where the post-industrial environment and creative atmosphere have made the area increasingly central, accessible and in high demand for offices and business premises. Sörnäinen is located just north of the CBD with excellent communications. It is also a short walk to the intensively developing Kalasatama and the properties that were part of our acquisition of the real estate company Lindström Invest in mid-November.

Hämeentie 15 was built in 1956 with an extension in 1990. The building also offers service in the form of a gym, a restaurant and a sauna with a terrace on the top of the building.

"It feels great that we have made a good acquisition in a good submarket. We signal our ambition to be active in the continued expansion in Helsinki", states Henrik Saxborn, CEO of Castellum AB.
