## **Martin Welna joins Adelis as new Partner based in Denmark**

We are pleased to announce that Martin Welna will join Adelis as a new Partner from October 1<sup>st</sup> 2021.

Martin brings more than 15 years of professional experience from senior positions in private equity, investment banking, as well as an operational background.

The recruitment of Martin Welna is part of a carefully planned succession process where former Adelis Partner Steffen Thomsen has chosen to move into a Senior Advisor role.

"We are very pleased that Martin is joining the Adelis team. He has a strong investment track record in private equity coupled with a successful operational career. Denmark is a very important market for Adelis and our team has made several successful investments there over the past eight years. We are excited about adding Martin's capabilities to help us continue to build the leading lower mid-market private equity firm in Denmark and the Nordics", says Jan Åkesson, Co-Managing Partner at Adelis.

"Having spent more than 20 great years in private equity, including the better part of a decade with Adelis, I am looking forward to having more time for my other interests, while at the same time supporting Adelis in Denmark in my new role as a Senior Adviser", says Steffen Thomsen.

Martin will be based in Adelis' new office location in Copenhagen.
