aXichem obtains new order for aXivite from its U.S. distributor Berg Nutrition

[aXichem AB \(publ\)](#), a developer of natural analogue industrial compounds, announces that the company has obtained an order from [Berg Nutrition](#) for 300 kilos of aXivite. Berg Nutrition markets and distributes aXichem's unique synthetic capsaicin product, aXivite, in the U.S. market, targeting innovative suppliers of sports, fitness, pre-workout and weight management nutrition products and supplements.

"Berg Nutrition sees a great interest in aXivite from several of its customers that want to include aXivite in their current formulation or develop new consumer products based on this unique natural analogue ingredient. Berg recently introduced Glaxon and Slyce V2 which is a great example of how the company works together with a supplier to create an innovative nutrition product based on a specific profile. I am very pleased about the development we now experience with aXivite and I'm excited about the progress of our collaboration with Berg Nutrition.", says Lucas Altepost, Vice President and VP Sales & Marketing at aXichem.

North America's sports nutrition market is expected to show a CAGR of about 6 %, during the forecast period 2021-2026. Increasing health awareness, healthy lifestyle, rising number of health clubs and fitness centers and changing consumer preferences for nutritional products are the key growth drivers for the North American sports nutrition market, according to MordorIntelligence.com.
