

Press release, 2025-09-22
Malmö, Sweden

aXichem participates at Vitality Month Conference, presenting aXivite and its translation of scientific innovation into consumer products for sports performance

aXichem AB (publ), (aXichem), the developer of innovative natural analogue feed additives and food supplement ingredients, is accelerating its market entry in the dietary supplement and sport nutrition market with new product launches, and notes an increasing demand for [aXivite®](#). With multiple new formulations in Europe, and the U.S., aXichem will participate at the [Vitality Month Conference](#), under the theme "[Latest Scientific Advances Behind Metabolic Wellness](#)", in Madrid, 1st of October 2025- aXichem will share the latest science behind aXivite® and its metabolic health, weight control, and performance benefits. The conference is led by [Aker BioMarine](#) in collaboration with top players and ingredient brands across the health and wellness industry.

Lucas Altepost, VP, VP of Marketing and Sales at aXichem comments:

"aXichem has experienced an increasing interest in aXivite® over the past quarters and several new products are being launched. Spain stands out in Europe as a vital and vibrant market for new innovative consumer products for weight control and sport performance. Recent commercial launches are validating aXivite® expansion, such as Life Pro Nutrition's "*Life Pro Ultra Cut Pre-workout Dragon Ball Z Edition*", and FullGas' launch of "*SaciaPro*". To further confirm the increased activity we just a few days ago received an order from HSN Store, at a value of 42 thousand Euro, to be used a new pre-workout formula in their portfolio. I'm looking forward to presenting at the Vitality Month Conference and to continue to position aXivite in the global health and wellness market".

aXichem's presentation will be held by Lucas Altepost, VP, VP of Marketing and Sales at aXichem, on October 1st 2025, at 17:25: "From Microbiome to Metabolism: The aXivite® Pathway to Results".

About aXichem

aXichem develops, patents and markets natural analogue industrial chemicals, i.e., synthetically produced substances that have similar and comparable properties to natural substances. The company's first product is phenylcapsaicin, which the company commercializes under two brands, aXiphen® and aXivite®, as an ingredient in animal feed and dietary supplements, respectively. The business is divided into three market areas with different applications for phenylcapsaicin: as an ingredient in feed for poultry, such as chicken and turkey; as an ingredient in food supplements for gut health, weight control and sports and exercise; and as an ingredient in food supplements for the bio-enhancement of curcumin and melatonin. aXichem is listed on the Nasdaq First North Growth Market. Certified advisor for aXichem is Västra Hamnen Corporate Finance AB.
