Press release

Inwido appoints new Directors for the Business Areas EME and Sweden

Inwido, northern Europe's largest provider of window and door solutions, today announces two changes in the Group Management team. New Senior Vice President for Inwido's Emerging European Markets, EME, including UK, Ireland, Poland and Russia from June 25, is Mikael Carleson. Anders Isaksson, previously group COO, will become the new Managing Director for Sweden as of June 18.

Mikael Carleson has extensive experience from management positions in international companies. During almost 20 years he operated in different positions and countries at Alfa Laval, a company he left in 2008 for the position as President Region Europe within Höganäs. His latest assignment was as President Region EMEA & Global Manager Service Operations Cardo Flow Solutions.

Anders Isaksson previously COO of Inwido Group, is the new Managing Director of Inwido Sverige AB. This is a position Anders held between the years 2004-2010, and prior to that he was production manager for the company.

"Anders led our Swedish operations during some turbulent times with very good growth and profits as a result. With the investments we've done in marketing, sales and innovation during the last couple of years I feel assured that he will be able to take the organization to the next level," says Håkan Jeppsson, President and CEO of Inwido.

"I'm also very happy that Mikael Carleson has taken on the challenge of growing our European operations outside the Nordic countries. With his experience I feel confident that we will reach our ambitious goals in Europe," says Håkan Jeppsson, President and CEO of Inwido.
