

Bravida Denmark signs nationwide contract with Bygningstilsynet for service and installation work

Bravida Denmark has signed a contract with the Danish Building and Property Agency (Bygningstilsynet) for nationwide service and maintenance in the areas of fire, security, HVAC, cooling and technical installations. The contract has a duration of two years and there is also an extension option.

The Danish Building and Property Agency is a central authority that provides premises and buildings for governmental bodies in Denmark. Bravida's assignment includes ensuring the compliance with legal requirements and continuous optimisation of the infrastructure for thousands of government workplaces throughout Denmark, from east to west. The contract covers regular maintenance, service, and repair and replacement of parts, in the areas of fire, security, HVAC, cooling and technical installations.

"We are very proud and pleased to have entered into this contract with the Danish Building and Property Agency. It clearly demonstrates our broad competence and expertise in the numerous technical areas we offer at Bravida. We have been working with the Danish Building and Property Agency for the past five years in various technical areas, and the fact that they have chosen us again underlines the strong and valuable partnership that we have already built up," comments Henrik Hougaard, Regional Manager for Region North at Bravida Denmark.

The contract will enter into force on 1 June 2026. The initial duration of the contract is two years, and there is also the possibility of renewal for a further two years. The contract could therefore run until 31 May 2030.
