

Bravida wins installation contract worth around EUR 200 million at a new data centre in Finland

Bravida has signed a contract for all the installation work at the atNorth data centre as the Principal Contractor in Kouvola, Finland. The order value is approximately EUR 200 million.

Bravida's assignment is to be the Principal Contractor including all the installation work and management of the construction contract (CSA). The project will be led by the Bravida Group's PMO – Special Projects. The project will be delivered together with Bravida's Finnish organisation, which has a proven track record of successfully executing industrial projects.

"We are very proud to have been awarded another installation assignment in one of the Nordic region's new data centre projects. Bravida is the Nordic leading supplier in the data centre segment. In this project, Bravida is a strong partner and manages suppliers on behalf of the end customer, providing support throughout the entire process. It is an important step for Bravida in Finland, where we have a solid order backlog and expect continued growth in the market going forward," comments Mattias Johansson, CEO and Group President at Bravida.
