

## Retailer Places €14M Order for Cash Management from Gunnebo

**A large retailer in Europe has placed an order for Gunnebo's intelligent cash deposit machines and related services worth 14 M€ over the next five years.**

The retailer, which has a pan-European presence, ordered over 1,000 Gunnebo SafeDeposit machines, with roll-out starting December 2018.

"The customer is part of a growing move among retailers to benefit from the pre-crediting services enabled by Gunnebo's smart deposit machines," says Tomas Wängberg, Senior Vice President Cash Management at Gunnebo.

With pre-crediting, cash is counted and credited immediately to the retailer's bank account through Gunnebo's SafeDeposit machines and software. CIT delivers the cash physically to the bank at a later date.

The customer chose Gunnebo over the competition because Gunnebo has a presence in many European countries and has the potential to support retailers with solutions that work in many markets.
