

Malta 30 July 2018

## MRG's operator business receives ISO 27001:2013 certificate

*The certificate is a stamp of quality, demonstrating that the organisation meets the information security standards of ISO 27001:2013. The certificate will reduce time-to-market when accessing new markets and reduce time-to-maintain licenses in existing markets.*

Being certified against the ISO standard is a strategic business enabler for MRG since gaming authorities often base their security requirements on the ISO standard. The certificate is valid for three years and applies to the operator business Mr Green Ltd.

---

*"We have transformed information security into a business differentiator", says Jesper Kärrbrink, CEO of MRG's operator business Mr Green Ltd. "The certificate will be an essential element in supporting our continued growth and improved profitability".*
