## **Coor extends Nordic IFM contract with Telia Company**

**Coor has extended a pan-Nordic integrated facility management (IFM) deal with Telia Company, one of Coor's ten largest customers. This deal is for continued delivery and development of a portfolio of support services for Telia Company in Sweden, Norway and Finland.**

Telia Company is one of the Nordic region's leading telecom companies. The contract is one of Coor's ten largest, covering a wide array of soft FM services such as cleaning, reception and conference services, as well as security solutions. The objective is for the parties to partner closely in developing intelligent and sustainable FM solutions for the contemporary workplace.

"Telia Company is a customer with high ambition, which creates demands on us as a supplier. We are looking forward to an even deeper partnership," commented Mikael Stöhr, President and CEO of Coor.

Coor's engagement involves delivery at some 35 sites across the Nordics and 90 Telia stores in Sweden.

"During 2017, we have secured our position as the market leader in pan-Nordic IFM assignments by extending our assignment with SAS, our new pan-Nordic partnership with ABB, and most recently, this deal extension with Telia Company. We view this as corroboration of our ability to create value on this type of assignment," added Mikael Stöhr, President and CEO of Coor.
