Press release August 29, 2022, at 08:00 CEST

Coor extends IFM agreement with Volvo Cars

Since 2005, Coor has delivered facility management services to Volvo Cars. The company has now chosen to extend the collaboration regarding IFM services, including cleaning, reception, service desk and waste management.

The agreement spans three years with an extension option for a further two years, and is worth some SEK 145 million annually excluding additional variable project volumes. The agreement runs from 1 September 2022.

“We are delighted about the renewed confidence. Flexibility, innovation and sustainability are important parameters in the contract, and we look forward to taking our collaboration to the next level,” commented AnnaCarin Grandin, CEO and President of Coor.

Coor’s service delivery to the company is broad-based. In addition to the extended IFM agreement, Coor also delivers property services, process decontamination and process maintenance to Volvo Cars, both in Sweden and in Gent, Belgium.
