Alfa Laval wins SEK 275 million off-shore orders

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won three orders to supply Framo pumping systems for three FPSO (Floating Production, Storage and Offloading) vessels to be built in China. The orders have a combined, total value of approximately SEK 275 million and are booked in the Pumping Systems unit of the Marine Division, with deliveries scheduled for 2021.

The orders comprise marine pumping systems for crude oil offloading, produced water, slop and ballast duties.

“I am pleased to announce these large orders for our Framo pumping systems. These three orders confirm our systems reliability and ability to provide safe and optimized performance,” says Sameer Kalra, President of the Marine Division.

Did you know that... Framo was acquired by Alfa Laval in 2014 and is now part of the company's worldwide organization?

This is Alfa Laval

Alfa Laval is active in the areas of Energy, Marine, and Food & Water, offering its expertise, products, and service to a wide range of industries in some 100 countries. The company is committed to optimizing processes, creating responsible growth, and driving progress – always going the extra mile to support customers in achieving their business goals and sustainability targets.

Alfa Laval's innovative technologies are dedicated to purifying, refining, and reusing materials, promoting more responsible use of natural resources. They contribute to improved energy efficiency and heat recovery, better water treatment, and reduced
