### Alfa Laval wins SEK 60 million energy-efficiency order in Canada

**Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply plate heat exchangers for cooling applications in Canada. The order, booked in the Energy and Environment segment late March, has a value of approximately SEK 60 million and delivery is scheduled to start in 2013 and be finalized in 2014.**

The Alfa Laval heat exchangers will be used to recover energy and cool process water in an oil processing facility in Canada. The project, which is a capacity expansion, duplicates an existing facility, for which Alfa Laval also supplied all the plate heat exchangers.

“This order confirms our strong position in the oil and gas industry. It also proves the quality and reliability of our plate heat exchangers, as the customer once again chooses our equipment”, says Lars Renström, President and CEO of the Alfa Laval Group.

**Did you know that...** Alfa Laval has been present in Canada since 1899?

#### **About Alfa Laval**

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval wins SEK 60 million energy-efficiency order in Canada

Alfa Laval's products are also used in power plants, aboard ships, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena.

Alfa Laval is listed on Nasdaq OMX, and, in 2012, posted annual sales of about SEK 29.8 billion (approx. 3.5 billion Euros). The company has today about 16 400 employees.
