

OrganoWood gets its biggest project order ever

OrganoClick's subsidiary OrganoWood has received its biggest single project order ever. For the construction of a new office building at Arlanda, approximately 11.000 m² of cladding will be built with OrganoWood®-cladding.

- "OrganoWood is growing strongly on the professional building market. We have now been on the market for five years which makes OrganoWood® a more and more proven technology. In combination with Swedish SP's recently published third-party long-term field studies, showing OrganoWood's good durability, this makes OrganoWood® a preferred choice among more and more professional building companies.", says Jens Hamlin, Managing Director at OrganoWood.

The order will be delivered in several pieces during the period June-August 2017.

About OrganoClick

OrganoClick AB (publ) is a public Swedish cleantech company listed on Nasdaq First North. The company develops, produces and markets functional materials based on environmentally friendly fiber chemistry. Examples of products that are marketed by OrganoClick are the water repellent fabric treatment OrganoTex®, the flame and rot-resistant timber OrganoWood® and the biocomposite material OrganoComp®. OrganoClick was founded in 2006 as a commercial spin-off company based on research performed at Stockholm University and the Swedish University of Agricultural Sciences within environmentally friendly fiber chemistry. OrganoClick has won a number of prizes, such as "Sweden's Most Promising Start-up" and "Sweden's Best Environmental Innovation", and has also received a number of awards, such as the WWF "Climate Solver" award and has also appeared for two years on the Affärsvärldens and NyTekniks list of Sweden's top 33 hottest technology companies. OrganoClick has its head office, production and R&D located in Täby, north of Stockholm. OrganoClick's Certified Adviser on Nasdaq First North is Erik Penser Bank.
