

## OrganoTex® best-in-class in Utemagasinet's and Hemfakta's textile impregnation tests

OrganoClick has since several years supplied biodegradable industrial impregnation products for textiles under the brand OrganoTex®. In 2018, OrganoTex® was launched as a textile impregnation product for consumers used for making garments and fabrics water repellent. In Sweden, the products are sold by retailers such as Naturkompaniet, Alewalds, Skistar, Team Sportia, etc. In two independent tests performed by Utemagasinet (Outdoor magazine) and Hemfakta (Home facts) OrganoTex® is the test winner for both its water proofing functionality and its environmental performance.

"This is so great news! That our product OrganoTex® is appointed as test winner by two independent test groups is fantastic. It shows what great product we have and that environmental performance can go hand-in-hand with high functionality. And so fun that we win tests that are both performed on outdoor garments as well as ordinary cloths", says Susanne Karlsson, Sales manager for the OrganoTex

@-brand at OrganoClick.

In the tests, the globally leading textile impregnation brands have been tested and compared in both formal ISO-tests for water proofing as well as for the environmental performance. The tests have been published in Utemagasinet's latest issue (12/2020) ([www.utemagasinet.se](http://www.utemagasinet.se)) and on

### About OrganoClick

OrganoClick AB (publ) is a public Swedish cleantech company listed on Nasdaq First North Growth Market. The company develops, produces and markets functional materials based on environmentally friendly fiber chemistry. Examples of products that are marketed by OrganoClick are the durable water repellent technology for textiles OrganoTex®, the biocomposite material OrganoComp®, surface treatment and maintenance products for villa and property owners under the brand BIOkleen®, biobased binder under the trade name OC-BioBinder™ and the flame and rot-resistant timber OrganoWood® (through the joint-venture OrganoWood AB). OrganoClick was founded in 2006 as a commercial spin-off company based on research performed at Stockholm University and the Swedish University of Agricultural Sciences within environmentally friendly fiber chemistry. OrganoClick has won a number of prizes, such as "Sweden's Most Promising Start-up" and "Sweden's Best Environmental Innovation", and has also received a number of awards, such as the WWF "Climate Solver" award, listed as a SUSTAINIA100 company and has also appeared for two years on the Affärsvärldens and NyTekniks list of Sweden's top 33 hottest technology companies. OrganoClick has its head office, production and R&D located in Täby, north of Stockholm. OrganoClick's Certified Adviser on Nasdaq First North Growth Market is Mangold Fondkommission AB, tel: +46 (0)8 503 01 551, email: [ca@mangold.se](mailto:ca@mangold.se).
