

## OrganoClick AB (publ) certified according to ISO 9001 and 14001

OrganoClick AB:s (publ) quality and environment management system has been certified according to ISO 9001:2008 and 14001:2004 from the accredited certification company Intertek.

*"We are very proud to have received the ISO 9001 & 14001 certifications. This is a step for us to further improve our quality and environmental work and most important, continue to work with constant improvements within these important areas. By focusing even more on these areas we believe we will have more satisfied customers that will generate more business",* says Mårten Hellberg, CEO of OrganoClick.

During 2014, OrganoClick decided to initiate the work to develop a management system and certify it according to ISO 9001 and ISO 14001. The purpose was to achieve a better control system for the growing company and to further focus the company's work on quality and environmental issues. New updated sustainability and quality goals were developed and plans of how to achieve them and continuously improve these areas were set up.

*"Sustainability and quality is OrganoClicks DNA with our background from academic research within green fiber chemistry. With this environmental and quality certification we want to strengthen our culture and value based work in our growing organisation",* Mårten Hellberg continues.

### **About OrganoClick**

*OrganoClick AB (publ) is a public Swedish cleantech company listed on Nasdaq First North. The company develops, produces and markets functional materials based on environmentally friendly fiber chemistry. Examples of products that are marketed by OrganoClick are the water repellent fabric treatment OrganoTex®, the flame and rot-resistant timber OrganoWood® and biocomposite materials. OrganoClick was founded in 2006 as a commercial spin-off company based on research performed at Stockholm University and the Swedish University of Agricultural Sciences within environmentally friendly fiber chemistry. OrganoClick has won a number of prizes, such as "Sweden's Most Promising Start-up" and "Sweden's Best Environmental Innovation", and has also received a number of awards, such as the WWF "Climate Solver" award and has also appeared for two years on the Affärsvärldens and NyTekniks list of Sweden's top 33 hottest technology companies. OrganoClick has its head office, production and R&D located in Täby, north of Stockholm. OrganoClick's Certified Adviser on Nasdaq First North is Pareto Securities AB.*
