

Technical News - 11/25 IT – INET Nordic – Reminder: New segment MIC for existing Spotlight Sweden Certificates

As previously communicated in [IT Notice](#) , [IT Notice](#) , [IT Notice](#) and [IT Notice](#), new segment MIC for existing Spotlight Sweden Certificates will be allocated in INET Nordic system.

Details

The Market Identifier Code (MIC), a unique identification code used to identify among other exchanges, trading platforms and markets. The MIC is a four alpha character code defined in ISO 10383.

MICs are included as execution venue MIC Codes in OUCH & FIX execution messages – LastMkt [30], Order Book Directory messages in ITCH, GLIMPSE and NLS, trade messages in NLS and GCF (TIP) and Basic Data messages on instrument level in GCF (TIP).

INET identifiers

The following new MIC (for existing segment) will be activated from November 3, 2025 in production.

INET Market Segment Name	INET Segment Symbol	INET sequent no	Old MIC	New MIC
Spotlight Sweden Certificates	SPSE CERT	291	XSAT	SPSD

Subsequently, all instruments in segment with new MIC will be affected. Full list of orderbooks attached.

As of November 3, 2025, orderbooks in existing Spotlight Sweden Certificates will have SPSP as market segment MIC, via reference/market data in ITCH, GLIMPSE, NLS and GCF protocols. Executions will contain SPSP value in LastMkt field for OUCH and FIX protocols.

Protocol specifications

The OUCH specification have been updated with a value in existing field Last Market for the **SPSP** MIC code for appropriate Market segment MIC code, and are available at the [Nasdaq Nordic Technical Information website](#).

Reference data will be available via GCF-TIP, and existing INET protocols are used for all inbound and outbound messaging.

Market Data access

Spotlight Sweden Certificates segment is included in INET ITCH TCP and multicast data feeds. Market segment is also available in filtered TotalView-ITCH TCP product: **Stockholm Warrants**.

If a Nordic Equity market data customer requires Spotlight exchange to be added to one or more accounts in Genium Consolidated Feed (GCF) please contact:
dataeurope@nasdaq.com

Time Schedule

- INET Test (NTF), GCF TST4 – Available
- INET Production – November 3, 2025
