

## **Getinge makes additional provisions of MSEK 350 in relation to Brazilian investigations**

March 21, 2018  
Gothenburg, Sweden

**Getinge has today decided to make an additional provision of MSEK 350 related to, among other things, alleged fraud in bidding proceedings in Brazil mainly attributable to the years 2004-2015, primarily involving Getinge's Brazilian subsidiaries Maquet Cardiopulmonary do Brasil Indústria e Comércio Ltda and Maquet do Brasil Equipamentos Médicos Ltda. The additional provision will have effect on the operating profit of the first quarter 2018.**

In connection with the Year-End Report 2017, Getinge made initial provisions of MSEK 69 for costs related to the Brazilian investigations, which means that in total, MSEK 419 has been allocated to the ongoing investigations.

Negotiations will continue with relevant authorities and are expected to be finalized during 2018. It cannot be excluded that settlements with relevant authorities will have additional significant effect on the result and financial position of Getinge.
