

Clavister E10 Order From Canon ITS Fuels Momentum in Japan

June 14, 2018, Örnsköldsvik, Sweden. Clavister a leader in high-performance network security solutions, reports that Canon IT Solutions, a key customer selling to the Japanese market, has placed an additional order totaling 1.7M SEK for Clavister E10 products. The appliances—Clavister’s fastest selling firewall product in its history—will be deployed to Canon IT Solutions customers in various environments.

The order demonstrates a continued trust in Clavister and Clavister’s products from the Japanese market, a core market for Clavister, as well as the result of a collaborative commercial project between the two companies. “The E10 is a terrific appliance, especially for Managed Security Service Providers (MSSPs) that need a powerful, easily deployable and competitively priced appliance to create rich security at the customer side. It really is hitting a sweet spot for many of our global customers and we anticipate it to continue fuel our business going onwards,” John Vestberg, President and CEO of Clavister states assuredly.
