

Press Release

October 18, 2018 8:00 pm CET

The operating income in the third quarter 2018 for Skanska Group is about SEK 0.5 billion (1.5), including write downs and impairment charges in the U.S. totaling SEK 1.3 billion

Skanska makes project write downs of SEK 0.9 billion related to the construction phase of two ongoing PPP-projects in the U.S. The project write downs are caused by additional cost overruns due to low production rates and delays. Skanska also takes a goodwill impairment charge of SEK 0.4 billion, with no cash flow impact, in the third quarter associated with the process of exiting the U.S. power sector.

After the write downs and impairment charge, the operating income in the third quarter 2018 for the Skanska Group is expected to be about SEK 0.5 billion (1.5). Attached appendix includes additional preliminary financial statements.

Going forward the implications for Skanska's strategy in the U.S. will be to:

- Stop bidding for mega design-build PPP projects
- Stop bidding for Engineering, Procurement and Construction (EPC) projects
- Explore divesting the operations in the power sector
- Close down the project development function of Infrastructure Development

A telephone conference will be held at 8:00 am (CET), tomorrow Friday October 19. During the conference call, Skanska's President and CEO Anders Danielsson and CFO Magnus Persson will describe the situation and respond to questions.

To participate in the telephone conference, with the possibility to ask questions, please dial +46 8 505 564 74, or +44 203 364 5374, or +1 855 753 2230.
