### **Skanska signs additional contract for data center in Georgia, USA, worth USD 255M, about SEK 2.3 billion**

**Skanska has signed a supplemental contract with an existing client to build a data center in Georgia, USA. The contract is worth USD 255M, about SEK 2.3 billion, which will be included in the US order bookings for the second quarter of 2026.**

The project includes the construction of a 22,700 square meters (approximately 245,000 SF) data center, associated site work, and underground utilities. The scope also includes a fitout of an administration space and five data halls.

Construction began in March 2026 and will be completed in the first quarter of 2028.
