### **Skanska builds data center in Virginia, USA, for USD 94M, about SEK 870M**

**Skanska has signed an initial contract with an existing client to build a data center in Virginia, USA. The contract is worth USD 94M, about SEK 870M, which will be included in the U.S. order bookings for the second quarter 2026.**

The project includes the construction of a 19,500 square-meter (210,000 SF) data center, including four data halls, associated site work, and underground site utilities. This will be the second building constructed on the campus.

Construction will start in October 2026 and will be completed in May 2028.
