Skanska to build hospital building in Pori, Finland, for EUR 78M, about SEK 850M

Skanska has signed a contract with Satakunnan hyvinvointialue to build a new hospital building in Pori, Finland. The contract is worth 78M, about SEK 850M, which will be included in the Nordic order booking for the fourth quarter of 2026.

The project comprises a new hospital building with a total area of approximately 27,100 square meters. The new facilities will include a 24-hour joint emergency department, intensive care and monitoring units, cardiology functions, an operating unit, sterile supply services, imaging facilities and recovery rooms. The building will also include the support and technical facilities.

Construction is expected to begin in the fourth quarter of 2026 and be completed in the third quarter of 2029.
