Skanska invests EUR 21M, about SEK 230M, in a residential development project in Helsinki, Finland

Skanska invests in a residential development project with 50 apartments in Helsinki, Finland. The total investment amounts to EUR 21M, about SEK 230M.

The project has the highest energy efficiency class, and it aims to achieve the YL Environmental Classification. Part of the building's roof will feature a green roof.

Construction will begin in the fourth quarter of 2026, and it is expected to be completed in the second quarter of 2028.
