VIII. NOTES TO THE AGENDA POINTS OF THE AGM

AGM – item 1: CHAIRMAN OF THE MEETING

Millicom's Nomination Committee proposes Mr. Alexander Koch, attorney at law (*Avocat à la Cour/Rechtsanwalt*), with professional address in Luxembourg, to preside over the AGM.

In the event of Mr. Alexander Koch's absence, the Chairman of the Board – or in the absence of the Chairman of the Board, any member of the Board – shall be empowered to appoint from amongst the persons present at the meeting the individual that will preside over the AGM.

The Chairman of the AGM shall be empowered to appoint, from among the persons present at the meeting the other members of the bureau of the meeting (i.e., the Secretary and the Scrutineer).

AGM – items 4 and 5: RESULTS ALLOCATION AND PAYMENT INFORMATION FOR PROPOSED DIVIDEND

On a parent company basis, Millicom generated a profit of USD 910,552,729 for the year ended December 31, 2018. The Board proposes to allocate the results to unappropriated net profit.

The Board proposes the distribution of a dividend from unappropriated net profits of USD 2.64 per share to Millicom shareholders, in accordance with articles 21 and 23 of the Company's articles of association, to be paid in **two equal installments** on or around May 10, 2019 and November 12, 2019, respectively.

Sufficient reserves. At December 31, 2018 Millicom had, after allocation of the 2018 profit, unappropriated net profit of USD 1,224,281,879. The annual accounts of Millicom for the year ended on December 31, 2018 show that Millicom has sufficient funds available, in accordance with applicable law, to distribute the proposed USD 2.64 dividend per share which represents an approximate aggregate dividend of USD 267 million. The Board of Directors confirms that, in the absence of losses incurred by Millicom as of January 1, 2019 reducing the said unappropriated net profits below an amount of USD 270 million, the total proposed dividend can be paid out of the unappropriated net profit available at the date of the AGM.

Tax. In accordance with Luxembourg income tax law, the payment of the dividend will be subject to a 15% withholding tax. Millicom will withhold the 15% withholding tax and pay this amount to the Luxembourg tax administration. The dividend will be paid net of withholding tax. However, a reduced withholding tax rate may be foreseen in a double tax treaty concluded between Luxembourg and the country of residence of the shareholder or an exemption may be available in cases where the Luxembourg withholding tax exemption regime conditions are fulfilled (e.g., for shareholdings held by corporations and representing at least 10% of the share capital or an acquisition cost of at least Euro 1.2 million for an uninterrupted period of at least 12 months, and subject to tax at a rate of at least 9% for shareholders located in a non-EU jurisdiction linked with a double tax treaty with Luxembourg). These shareholders should contact their advisors regarding the procedure and the deadline for a potential refund of the withholding tax from the Luxembourg tax administration.

The transactions over the shares under the Share Repurchase Plan may be carried out by any means, on or off the market or by the use of derivative financial instruments, listed on a regulated stock exchange or transacted by mutual agreement subject to all applicable laws and stock exchange regulations.

b) Maximum proportion of the share capital that may be repurchased

- The maximum aggregate number of shares authorized to be purchased is an amount not exceeding the lower of (i) five per cent (5%) of Millicom's outstanding share capital as of the date of the AGM (i.e., approximating a maximum of 5,086,960 shares corresponding to USD 7,630,440 in nominal value) or (ii) the then available amount of Millicom's distributable reserves on a parent company basis, on the Nasdaq Stock Market in the US, Nasdaq Stockholm or any other recognized alternative trading platform. The nominal value or, in the absence thereof, the accountable par value of the acquired shares, including shares previously acquired by Millicom and held by it (including the stakes held by other group companies referred to in Article 430-23 of the 1915 Law), and shares acquired by a person acting in his own name but on Millicom's behalf, may not exceed five per cent (5%) of the issued share capital, it being specified that (x) such limit applies to a number of shares that shall be, as necessary, adjusted in order to take into account transactions affecting the share capital following the AGM as further detailed under c) below, (y) that the acquisitions carried out by Millicom may in no event cause it to hold, directly or indirectly, more

than five per cent (5%) of the share capital, and (z) the aggregate amount that Millicom may assign to the buyback of its own shares shall be set in accordance with the provisions of the 1915 Law.

- The acquisitions may not have the effect of reducing Millicom's net assets below the amount of the subscribed share capital plus those reserves, which may not be distributed under the law or the articles of association of the Company.
- Only fully paid-up shares may be included in the transactions.

c) Price and volume considerations

The minimum and maximum purchase prices at which Millicom may repurchase its shares shall be set at:

- Minimum repurchase price: SEK 50 (or USD equivalent)
- Maximum repurchase price not to exceed the higher of: (i) the published bid that is the highest current independent published bid on a given date or (ii) the last independent transaction price quoted or reported in the consolidated system on the same date, regardless of the market or exchange involved.

The AGM shall grant all powers to the Board to proceed with unit price adjustments and the maximum number of securities to be acquired in proportion to the variation in the number of shares or their nominal value resulting from possible financial operations by Millicom, such as but not limited to, capital increase by incorporation of reserves and free allocation of shares or in case of splitting or regrouping of shares et seq.

Any transaction undertaken by Millicom under the Share Repurchase Plan as to price and volume will be undertaken in accordance with all legal and stock exchange requirements. The aforementioned includes *inter alia* that, when shares are repurchased on the Nasdaq Stockholm, the price shall be within the registered interval for the share price prevailing at any time (the so called spread), that is, the interval between the highest buying rate and the lowest selling rate. In addition, any shares repurchased shall be repurchased in compliance with Rule 10b-18 pursuant to the U.S. Securities Exchange Act of 1934.

d) Duration

Such a Share Repurchase Plan will start no earlier than May 2, 2019 and end no later than at the earliest of (i) the 2020 AGM, (ii) the moment when the aggregate value of shares repurchased by Millicom since the start of this Share Repurchase Plan reaches the limits indicated under (b) above, (iii) the moment when Millicom' shareholding (including the stakes held by other group companies referred to in Article 430-23 of the 1915 Law and shares acquired by a person acting in his own name but on Millicom's behalf) reaches ten per cent (10%) of the subscribed share capital in accordance with Article 430-15 (1) of the 1915 Law or (iv) within eighteen months as of the date of the AGM.

This Share Repurchase Plan supersedes and replaces all other previous share repurchase plans of Millicom which are therefore deemed cancelled.

AGM – item 21: GUIDELINES FOR REMUNERATION TO SENIOR MANAGEMENT

The Board proposes that the Annual General Meeting resolves on the following guidelines for remuneration and other employment terms for the senior management for the period up to the 2020 AGM.

Compensation guidelines

The objectives of the guidelines are:

- to ensure that Millicom can attract, motivate and retain senior management, within the context of Millicom’s international talent pool, which consists of Telecommunications, Media & FMCG companies;
- to create incentives for senior management to execute strategic plans and deliver excellent operating results with an emphasis on rewarding growth; and
- to align the incentives of senior management with the interests of shareholders, including requiring substantial share ownership by all senior management.

Compensation shall be based on conditions that are market competitive in the United States and Europe and shall consist of a fixed salary and variable compensation, including the possibility of participation in share-based incentive programs and pension schemes. These components shall create a well-balanced compensation reflecting individual performance and responsibility, both short-term and long-term, and Millicom’s overall performance.

(i) Base salary

Senior management base salary shall be competitive and based on individual responsibilities and performance.

(ii) Variable remuneration

The senior management may receive variable remuneration in addition to base salary. The variable remuneration consists of (a) a Short-term Incentive Plan (“STI”) and (b) a Long-term Incentive Plan (“LTI”).

The amounts and percentages for variable remuneration are based on pre-established goals and targets relating to the performance of both Millicom and individual employees and are intended to be competitive as part of a total compensation package.

(a) Short-term Incentive Plan (“STI”)

The STI consists of two components: a cash bonus and a restricted share-based component (the Deferred Share Plan, or “DSP”). For certain of our operations, the deferred share component is calculated as deferred cash. The structure of the STI, including measures, achievement payouts and share vesting periods, align Millicom’s Global Senior Management (as defined below) with shareholders and with peer companies in Millicom’s international talent pool. The design of the STI for 2019 is the same as the design in 2018.

The performance measures are: (i) Service Revenue (20%), (ii) EBITDA (earnings before interest, tax, depreciation and amortization) (20%), (iii) OFCF (operating free cash flow) 20%, (iv) Net Promoter Score (NPS) 10%, and (v) Personal Performance (30%). The financial performance measures are aligned with the 2019 medium-term guidance published by the Company on February 7, 2019.

The DSP seeks to attract and retain management and high-potential employees, by rewarding for past performance and incentivizing longer-term service. It is part of Millicom's short-term incentive program and as such the Board deems that pro rata vesting (30%/30%/40%) over a three-year period is reasonable in order to achieve the objectives of Millicom's overall compensation and reward strategy.

Eligibility

Eligibility for participation in the DSP component of the STI is limited to members of Millicom's Global Senior Management, which comprises the CEO, the Executive Vice Presidents ("EVPS"), Corporate Vice Presidents ("VPs"), Corporate Directors, Country General Managers ("GM") and Country-based Directors reporting directly to Country General Managers (GM-1). Additionally, employees designated as being "key talents" or having "critical skills" may be nominated to participate in the DSP (the "DSP Participants"). Currently, 300 individuals are included in this group. Other employees participate in the STI and receive a cash bonus, but do not participate in the DSP.

2019 DSP (based on 2018 performance)

Information on the 2019 DSP, including performance measures and payout scales (based on performance in 2018), and the number of share awards to be granted, are described in agenda item 22 below.

2020 DSP (based on 2019 performance)

Millicom has maintained the same design for the 2020 DSP. The 2020 DSP share awards will vest (subject to the participant still being employed by Millicom) 30% in Q1 2021, 30% in Q1 2022 and 40% in Q1 2023. The 2020 DSP will be presented for approval at the 2020 AGM, once all final details, including maximum number of share awards to be issued, are known.

(b) Long-term Incentive Plan ("LTI")

The LTI consists of a performance based share-based plan ("PSP") whereby share awards granted vest 100% at the end of a three-year period, subject to performance conditions. The PSP seeks to complement and support Millicom's long-term business view and strategy by focusing decision-making on the medium to longer-term; and encouraging significant personal ownership of Millicom shares by senior management. The design of the LTI for 2019 is the same as the design in 2018.

The performance conditions are: (i) OCF, with a specific 3 year CAGR target (50%), (ii) Service Revenue, with a specific 3-year CAGR target (25%), and (iii) Relative Total Shareholder Return ("TSR") vis-a-vis a peer group of companies (25%). For certain of our operations, this award is calculated as deferred cash, and the two components are OCF and Service Revenue, each with a 50% weight. The Service Revenue and OCF measures are aligned with the 2019 medium-term guidance published on February 7, 2019.

PSP share awards will vest, subject to achievement of the performance conditions, at the end of a three-year period ending ten trading days after the earnings release in Q1 of 2022.

Eligibility

Eligibility for participation in the LTI is limited to members of Millicom's Global Executive Management, which is defined by Millicom's internal role grading structure and consists of the CEO, EVPs, VPs and GMs. Currently, 49 individuals are included in this group.

2019 PSP (based on 2019-2021 performance)

Information on the 2019 PSP, including performance measures and payout scales (based on performance from 2019 to 2021), and the number of share awards to be granted, is included in agenda item 22 below.

(iii) Other benefits

Other benefits can include, for example, a car allowance, medical coverage and, in limited cases, while on an expat assignment, housing allowance, school fees, home leave and other travel expenses.

(iv) Pension

The Global Senior Management are eligible to participate in a global pension plan which also covers death and disability insurance. The global pension plan is secured through premiums paid to insurance companies.

Notice of termination and severance pay

If the employment of Millicom's most senior management is terminated, a notice period of up to 12 months could potentially apply.

Deviations from the guidelines

In special circumstances, the Board may deviate from the above guidelines, for example additional variable remuneration in the case of exceptional performance.

AGM – item 22: SHARE-BASED INCENTIVE PLANS

As outlined in the proposed guidelines for remuneration under agenda item 21 above (and the corresponding guidelines approved at the 2018 AGM), variable compensation includes the following share-based incentive plans:

- (i) a short-term Deferred Shares Plan (DSP), and
- (ii) a three-year Performance Share Plan (PSP).

The Board proposes that the meeting resolves to approve the 2019 DSP, the 2019 PSP and the granting of share awards under both plans, both as further described below.

Governance of the Plans

The Board or the Compensation Committee is responsible for preparing the detailed terms and conditions of the share-based compensation plans, in accordance with the terms and guidelines set out herein. In connection therewith, the Board shall be entitled to make adjustments to meet foreign regulations or market conditions, and, in connection with delivery of shares to participants, offer share settlement in order to cover the participant's tax costs upon vesting.

The Board also may make certain other adjustments, including deciding to reduce the delivery of shares for all participants, or for certain categories of participants, covered by the 2019 PSP and 2019 DSP, if material changes occur within the Millicom or in the market that, in the Board's assessment, mean that the terms and conditions for the allotment of shares under the plans no longer fulfil the main objectives of the

plans.

The Compensation Committee of the Board of Millicom determines when an offer for the grant of share awards shall be made, the eligible employees to whom such offer shall be made and the terms governing the offer for the grant of share awards in accordance with the principles adopted by the AGM. The Compensation Committee shall also have the right to resolve on more detailed terms and conditions in accordance with the principles adopted by the AGM.

Preparation of the Proposal

Millicom's Compensation Committee has prepared the 2019 DSP and the 2019 PSP in consultation with external advisors. The plans have been reviewed at meetings of the Board in late 2018 and in the first months of 2019.

(i) Proposed 2019 DSP (based on 2018 performance)

In Q1 2019, share awards are granted under the 2019 DSP as part of the 2018 STI. The maximum number of shares that may vest under the 2019 DSP will be 297,856, representing approximately 0.29% of the outstanding shares and 0.29% of the outstanding votes. Each share award granted as part of the 2019 DSP, part of the 2018 STI, carries a non-transferable right to receive one share in Millicom on the relevant vesting date. Eligibility for participation in the 2019 DSP is described in item 21.

Payment / vesting

If the AGM approves the 2019 DSP, and thereby the granting of share awards to the DSP Participants, the STI is paid 50% in cash and 50% in DSP shares. For employees not participating in the DSP, or to the extent that the DSP is not approved by the AGM, the STI (including the portion that would have been provided as shares) will be a cash bonus. The share awards will vest (generally subject to the participant still being employed by Millicom) 30% in Q1 2020, 30% in Q1 2021 and 40% in Q1 2022.

Calculation

STI compensation is based on the following formula:

Employee's base salary X a pre-determined % of base salary X plan performance.

Plan performance is determined as a percentage achievement of financial, non-financial and personal performance measures, applied to a payout scale (with a 95% performance level minimum for each financial measure).

Performance measures (based on 2018 performance) and payout scale

Performance measures and weightings: (i) Service revenue (20%), (ii) EBITDA (earnings before interest, tax, depreciation and amortization) (20%), (iii) OFCF (operating free cash flow) 20%, (iv) net promoter score (NPS) 10%, and (v) personal performance (30%).

The performance measures are based on the extent to which the 2018 targets (Group, regional, or Country level as applicable to each individual) are achieved, in accordance with a linear payout scale providing for a zero payout for achievement less than 95%, a 100% payout for 100% achievement and a 200% payout for 110% or more achievement.

The personal performance measures are based on the rating scale below.

Performance rating	Does not meet	Partially meets	Meets	Exceeds	Exceptionally Exceeds
Payout	0	15% on cash component. 0 on shares component	30%	45%	60%

(ii) Proposed 2019 PSP

In Q1 2019 share awards are granted under the 2019 PSP (2019 LTI). The maximum number of shares that may vest under the 2019 PSP will be 523,926, representing approximately 0.51% of the outstanding shares and 0.52% of the outstanding votes. Each share award granted as part of the 2019 PSP, part of the 2019 LTI, carries a non-transferable right to receive one share in Millicom on the relevant vesting date. Eligibility for participation in the 2019 PSP is described in item 21.

Payment / vesting

One hundred percent of the share awards will vest after a three-year vesting period, in Q1 2022, subject to a number of shareholder return and company performance criteria over the three-year period and the participant still being employed by Millicom at the time of vesting. The target number of share awards is calculated as a percentage of the annual base salary of each participant on January 1, 2019.

Calculation

The target number of PSP share awards per participant ranges from 35% of salary to 400% (for the CEO) of base annual salary (as of January 1, 2019) as follows:

Seniority	% of base annual salary (range)
Country General Managers and Corporate Vice Presidents	35%-60%
CEO and Executive Management Team	100%-400%

Performance measures

Each PSP share award will vest as one Millicom share, subject to the following performance conditions over a three-year period from March 1, 2019 to February 28, 2022 (the "PSP Performance Period"):

Performance measure	% of the PSP
Operating Free Cash Flow ("OFCF"), with a specific 3-year CAGR target	50%
Service Revenue, with a specific 3-year CAGR target	25%
Relative Total Shareholder Return ("TSR") vis-a-vis a peer group* of companies.	25%

* The peer group used for assessment of the Relative Total Shareholder Return consists of America Movil, TIM Brazil, TEF Brazil, Entel Chile, Liberty Latin America, Telecom Argentina, Grupo Televisa, and Megacable.

Payout Scales & Vesting

The following linear payout scale is applied to the OCF and Service Revenue performance measures, with a zero payout for achievement less than 80%, a 100% payout for 100% achievement (“Target”) and a 200% payout for 120% or more achievement (“Maximum”):

OCF and Service Revenue achievement	<80%	90%	95%	100%	105%	110%	115%	120%
Payout	0	50%	75%	100%	125%	150%	175%	200%

The following linear payout scale is applied to the Relative TSR performance measure:

Relative (median) TSR	<100%	100%	105%	110%	115%	120%
Payout	0	100%	125%	150%	175%	200%

In addition, participants who receive a ‘does not meet’ performance rating are not eligible to participate in the PSP in the following year.

Share ownership requirements

Participants in the PSP are subject to Millicom’s Share Ownership Policy, which requires them to hold all shares vested (post tax) under either the PSP or the DSP and maintain the following minimum levels of share ownership:

Seniority	% of base annual salary
CEO	400%
CFO and Senior EVPs	200%
EVPs	100%
Other participants	50%

Accounting, cost and maximum number of shares

Both the DSP and PSP are accounted for in accordance with IFRS 2, which requires the cost of share awards to be recorded as employee costs in the income statement over the vesting period, based on the number of shares expected to vest and the fair value of those shares. Elements specific to each plan are as follows:

- (i) 2019 DSP

No expense is recognized for DSP share awards that do not ultimately vest. Vesting of the shares is not dependent on market conditions. The number of shares that may vest, approximate cost and percentage of outstanding shares (based on a share price on March 5, 2019 of USD 59.79) are as follows:

	Shares that may vest	Approximate cumulative three-year cost (SEK)	Approximate cumulative three-year cost (USD)	% of outstanding shares
At Maximum	297,856	166 million	18 million	0.29%

The costs and dilution are expected to have only a marginal effect on key ratios of Millicom.

Information about the outcome of the 2019 DSP will be presented in Millicom's 2022 Annual Report.

(ii) 2019 PSP

No expense is recognized for share awards that do not ultimately vest, except for PSP share awards where vesting is conditional upon a market condition which are treated as vested regardless of whether or not the market conditions are satisfied, provided that all other performance conditions are satisfied.

The cost of the 2019 PSP is allocated over the vesting period and is calculated in two distinct components as follows:

- 1) As the TSR measure is based on market conditions, the fair value of the shares in the PSP requires adjustment for future market-based conditions. For this, a specific valuation was performed on the grant date based on the probability of the TSR conditions being met (including the extent to which they are expected to be met) and the expected payout based upon leaving conditions.
- 2) The Service Revenue and OFCF performance components are non-market measures which are considered together with a leaving (forfeiture) estimate and based initially on a target fulfilment expectation.

The number of shares that may vest, approximate cost and percentage of outstanding shares (based on a share price on March 5, 2019 of USD 59.79) are as follows:

	Shares that may vest	Approximate cumulative three-year cost (SEK)	Approximate cumulative three-year cost (USD)	% of outstanding shares
At Target	261,963	142 million	15.3 million	0.26%
At Maximum	523,926	284 million	30.6 million	0.51%

The reference share price related to the market conditions for the PSP is USD 53.91. The reference price for the non-market measure is USD 59.79.

Cost and dilution are expected to have only a marginal effect on key ratios of Millicom.

The outcome of the 2019 PSP will be presented in Millicom's 2022 Annual Report.

Hedging arrangements and delivery of shares

The undertaking to deliver shares to the participants in the 2018 DSP and 2019 PSP will be fulfilled either by Millicom transferring its own treasury shares or, if required, by acquiring and transferring shares or issuing new shares.

Delivery of shares, subject to the terms of conditions of the plans, will be made free of charge.

Information regarding other incentive programs in Millicom
