Phoenix-Based Medical Diagnostic Imaging Group Signs Billing and Practice Management Contract with Zotec-MMP

Indianapolis, IN. – May 1, 2014 – Zotec-MMP, an industry-leading provider of radiology billing and practice management services, has been awarded an exclusive billing and practice management contract with Phoenix, Arizona-based Medical Diagnostic Imaging Group (MDIG). MDIG is a private practice that offers complete teleradiology services from more than 40 board certified and fellowship trained radiologists. Zotec Partners acquired Medical Management Professionals, Inc. (MMP) on August 31, 2013 to become Zotec-MMP.

MDIG has provided both hospital and imaging center radiology services throughout Arizona and surrounding states since 1987, and MDIG radiologists are fellowship trained in body imaging, neuroradiology, nuclear medicine, interventional radiology, pediatric radiology, musculoskeletal imaging and multiple other MRI, cross sectional and specialty sections. Its comprehensive diagnostic services include all radiology subspecialty areas as well as radiologic administrative management and IT assistance for facilities. In addition, complete teleradiology services are available with speech recognition dictations for rapid final reports of patient examinations.

“Zotec-MMP is excited about the impact our billing technology and practice management services will have on MDIG’s success,” states Kevin Shepherd, partner of business development with Zotec-MMP. “It is our goal to plan and project practice economics and to maximize the value of MDIG’s physician services with optimized business strategy and direction for long-term growth and stability. We are convinced this partnership will yield success for many years to come.”

According to Barry Sadegi, MD, President with MDIG, “Zotec-MMP offered our group the complete package, including nationally recognized practice management services, the most technologically advanced revenue cycle management capabilities, and professionals who possess deep industry knowledge. All of these factors have already had a positive impact on many areas of our business, and we are confident the business of our practice will continue to improve.”
