

New major order from China

Bactiguard has received a new order from Well Lead Medical (Well Lead) in China. The order will be delivered promptly and generate revenues in the third quarter of approximately SEK 4,8 million.

"The order we have just received from Well Lead is the first outside of the initial contract and therefore an important milestone in our cooperation, as it shows that end-customer sales in China are picking up", says Christian Kinch, CEO.

In June 2018, Bactiguard signed a combined distribution and license agreement with Well Lead, China's leading manufacturer of consumable medical devices.

The first two product orders, at a combined value of SEK 20 million, were part of the initial contract and delivered in the second and fourth quarters of 2018. The third order, which has now been received, is worth SEK 4,8 million and it is the first order outside the initial contract.

About Bactiguard

Bactiguard is a Swedish medical device company with a mission to save lives. To achieve this mission we develop and supply infection prevention solutions which reduce the risk of healthcare associated infections and the use of antibiotics. This way, we save significant costs for healthcare and the society at large.

The Bactiguard technology prevents bacterial adhesion and biofilm formation on medical devices. Bactiguard offers the technology through licence agreements and our BIP (Bactiguard Infection Protection) portfolio of products. Through our licence partner BD, urinary catheters with Bactiguard's coating are market leading in the USA and Japan. Bactiguard's own product portfolio of urinary catheters, endotracheal tubes and central venous catheters prevent some of the most common infections, which appear in the urinary tract, the blood stream and the respiratory tract.

Bactiguard is in a strong expansion phase in the European markets, China, India and the Middle East as well by establishing license agreements in new therapeutic areas. The company has about 70

employees around the world. Its headquarters and one of two production facilities are located in Stockholm, the other one in Malaysia. Bactiguard is listed on Nasdaq Stockholm.
