

# New order from Swedish authorities for Advenica encryption products, worth MSEK 7,6

Advenica, the Swedish provider of cybersecurity solutions, has received an order from Swedish authorities for encryption products. An agreement worth approximately MSEK 7.6 with delivery during the last quarter of 2018.

Advenica is a long-established and well trusted provider of cybersecurity solutions within National Security, both in Sweden and internationally. The encryption products are based on Advenica's patented technology and meet the authorities' requirements for communication of TOP SECRET information. They are also approved for encrypted communication to the highest information security level within the EU.

The order will be delivered during the last quarter of 2018.

*Cyber defence plays an increasingly important part for countries' security in today's politically volatile world. This requires high assurance solutions to safeguard the most critical information. With future proof technology, user-friendliness, exceptional reliability and high assurance, Advenica's products are unique on the market.*

*Heléne Bittmann, VP Sales National Security*
