

New order worth MSEK 7.6 for Advenica in Finland

Advenica, a leading European provider of cybersecurity solutions, has won a new order for products and services from a customer inside the Finnish public sector.

The need for high assurance cybersecurity solutions continues to grow. Advenica established an office in Helsinki late 2016, and since then Advenica Oy has developed a strong foothold within the area of national security, public sector and critical infrastructure on the Finnish market.

The newly signed order, worth MSEK 7.6, concerns both Advenica's products and services. The customer is an organization in the Finnish public sector and delivery is planned to Q3 and Q4 2019. The nature and circumstances of the industry regarding the delivery and the customer means that further information about the customer will not be published.

We notice a clearly growing demand for cybersecurity solutions that meet different organization's high demands for information security. With future proof technology, user-friendliness, exceptional reliability and high assurance, Advenica's products are unique on the market.
