

Advenica's data diodes receive national security accreditation in Austria

Advenica SecuriCDS Data Diode have now been approved by the Bundesministerium für Landesverteidigung (BMLV) and thus obtained national security accreditation in Austria.

Advenica, a leading European provider of cyber security solutions, established itself in Austria in mid-2017 to provide high-security cyber security solutions to customers in Austria and other European countries. Advenica's patented technology is approved at the highest level of security within the EU and the company has a ten-year framework agreement with the Austrian Armed Forces.

The accreditation is extremely important as it allows us to offer cyber security solutions to customers who require Top Secret level. With this accreditation we have an interesting offer for critical infrastructure customers in Austria and other European countries.

Markus Gursch, CEO Advenica Austria
