

Finnish order worth MSEK 4.5 for Advenica

A customer inside the Finnish public sector turns to Advenica to provide high assurance cybersecurity solutions.

Advenica continues its stable growth in Finland. Since establishing offices in Helsinki late 2016, multiple Finnish customers within the public sector have chosen the European provider's certified encryption and segmentation products.

The current order is placed by a customer in the Finnish public sector, is worth MSEK 4.5 and concerns both Advenica's products and services. Delivery is planned to Q3 and Q4 2019. The nature and circumstances of the industry regarding the delivery and the customer means that further information about the customer will not be published.

With this new order we take yet a step into the Finnish public sector with our products, services and know-how. There is a clearly growing demand for cybersecurity solutions that meet different organization's high demands for information security – and our our unique high assurance cybersecurity solutions are the perfect match.
