

Advenica receives new development assignment, worth SEK 5.4 million, from FMV

Advenica, the Swedish supplier of cybersecurity solutions, has received a new order from FMV (The Swedish Defence Materiel Administration). The deal is worth MSEK 5.4 and the project will start immediately.

Advenica is a well-established and trusted supplier of cybersecurity solutions both in Sweden and internationally. The solutions are based on Advenica's patented technology and meet the authority's requirements for communicating information classified up to TOP SECRET. In addition, they are approved for encrypted communication of the highest level of protected information in the EU.

Work on the new assignment will start immediately and is scheduled to be completed by the end of 2021.

We work with customers whose operations require high-assurance solutions to safeguard the most valuable information. Advenica's expertise and unique competence within cybersecurity increase information security and contribute to a safer world. We are proud that FMV has once again turned to us to develop new technologies that will be part of and ensure the security of the country.
