

Advenica Austria receives a new order for Data Diodes from a customer inside public sector

Advenica, a leading European provider of cybersecurity solutions, has received a new order for Data Diodes from a customer inside public sector. The order is worth MSEK 1.0 and delivery is planned to Q2 2020.

Advenica provides expertise and unique, technically advanced, durable and future-proof high assurance cybersecurity solutions for critical data in motion up to Top Secret classification. The company has its head office in Malmö, Sweden and established itself in Austria in mid-2017 to provide high-security cybersecurity solutions to customers in Austria and other European countries.

The newly signed order, worth more than MSEK 1.0, concerns Advenica's Data Diodes. The customer is an organization within the public sector and delivery is planned to Q2. The nature and circumstances of the industry regarding the delivery and the customer means that no further information about the customer will be published.

Many networks require extra protection against manipulation and data leakage as they contain classified or sensitive information. SecuriCDS Data Diodes from Advenica not only prevents intrusion and maintains network integrity but just as effectively prevents leakage and maintains network confidentiality. This high assurance solution safeguards assets for operators within ICS/SCADA or the defence industry.
