

Finnish customer places order, worth MSEK 9, on Advenica's products and services

Advenica, a leading European provider of cybersecurity solutions, has received a new order for high assurance cybersecurity products and services from a Finnish customer within the public sector.

Advenica provides expertise and unique, technically advanced, durable and future-proof high assurance cybersecurity solutions for critical data in motion up to Top Secret classification. The company has its head office in Malmö, Sweden and established itself in late 2016 in Helsinki, Finland. Since then, multiple Finnish customers within the public sector have chosen the European provider's certified encryption and segmentation products.

The new order from a customer within the Finnish public sector is worth MSEK 9 and concerns both products and services. Delivery is planned to autumn and winter 2021.

We work with customers whose operations require high-assurance solutions to safeguard their most valuable information. Our products meet the very highest security requirements and with our solutions, customers can be sure to prevent intrusion, data leakage and manipulation of information worthy of protection.
