

Advenica partners with CyberKnight in the Middle East and Africa region

Advenica, a Swedish leader in cybersecurity solutions, is proud to announce a new partnership with cybersecurity distributor CyberKnight Technologies in the MEA region.

CyberKnight is a cybersecurity focused value-added-distributor (VAD), headquartered in Dubai, covering the Middle East with on-the-ground presence in all key Middle East markets. Founded in 1993, Advenica has become a trusted supplier of advanced data protection technologies to defence, authorities, infrastructure and sectors. Advenica is now increasing its presence in this important region with a strategic partnership where CyberKnight's distribution approach will enable greater market penetration.

By combining our leading cybersecurity offering focused on advanced data protection with deep local presence, CyberKnight and Advenica will empower enterprises and governments across the MEA region to secure their most essential operations, reinforce digital trust, and lay the foundations for long-term cyber resilience in an increasingly complex threat environment.

Rickard Nilsson, COO at Advenica

"Advenica's decades of expertise in securing highly classified data make them an ideal partner as we expand our OT/ICS portfolio. This collaboration is about raising the level of assurance we deliver to customers. By adding Advenica's proven technologies, we can better equip national infrastructure operators, energy providers, and industrial leaders to withstand advanced cyberattacks, protect critical assets, and ensure compliance in a region where operational resilience is a national priority." added Dr. Amr Elsayed, OT Business Unit Head at CyberKnight.
