

# Advenica wins order worth 1,1 MSEK from new defence customer

Advenica has won an order on its Data Guard and Data Diode offering from a new customer in South Asia. The order is worth a total of 1,1 MSEK.

Controlled information exchange between different domains is of great importance for customers handling sensitive data. [Advenica's ZoneGuard](#) is a gateway that ensures that information exchange is made according to the organisation's policies while Advenica's hardware-based [data diodes](#) guarantees one-way data transfer.

Advenica has received an order from a defence customer in South Asia containing data diodes and ZoneGuard. The deal, made through our MEA-partner CyberKnight, will be delivered immediately.

*This new order is further proof that our strategy is working. We offer solutions where uncompromising security meets tailored delivery together with our channel partners. It is this trust that drives our growth and strengthens our position on a global market.*

*Marie Bengtsson, CEO at Advenica*
