

# Advenica wins order worth 1,5 MSEK from a Swedish authority

Advenica has won an order from a Swedish authority within the total defence regarding secure file import. The order concerns the solution File Security Screener and is worth 1,5 MSEK.

Advenica's [File Security Screener](#) enables file import to sensitive networks without compromising the integrity and confidentiality of the receiving system. The solution automatically handles malware scanning of all files transferred between different network domains while at the same time assuring separation of the connected networks with [data diode](#) technology.

Advenica has now received an order from a Swedish authority for a File Security Screener. The order includes a 3-year maintenance and support agreement and will be delivered immediately.

*With Advenica's File Security Screener solution organisations with high security environments can protect networks from data leakage and sanitise all files from malware before import.*

*Marie Bengtsson, CEO at Advenica*
