

Our vision is to make green energy instantly available,  
everywhere for everyone

Press release

## Clarification regarding myFC PowerCards

Stockholm, January 15 2019

### **A data sheet with incorrect technical specifications for JAQ Hybrid and its patented power card is in circulation.**

myFC would like to clarify that the certified and commercially available PowerCard for myFC's fuel cell based power bank JAQ Hybrid has a capacity of approximately 17,000 Joules, as previously announced. Should a myFC fuel card of higher capacity meet IEC certification standards and reach commercial availability, myFC will announce this accordingly. Any report of such a card existing today is false.

### **About myFC**

MyFC is a Swedish innovation company and market leader in micro fuel cells, which develops green energy solutions and markets the underlying components and advantages of its patented technologies to the smartphone world, power bank manufacturers and manufacturers (OEM) in the automotive industry. In 2017, myFC launched its JAQ Hybrid platform, which co-locates fuel cell and battery. JAQ Hybrid is the company's third hydrogen-powered product following JAQ and PowerTrek. It runs on the company's patented fuel consisting of salt, water and reactants. MyFC was founded in 2005 and is part of the group myFC Holding AB. MyFC Holding was listed on NASDAQ First North in May 2014. Its head office is located in Stockholm and the company's Certified Advisor is Avanza Bank.
