Scandinavian Enviro Systems AB (publ) successfully completes a directed share issue of 150 million shares and raises proceeds of SEK 300 million

The Board of Directors of Scandinavian Enviro Systems AB (publ) ("Enviro" or the "Company") has resolved on a directed share issue of 150,000,000 shares at a subscription price of SEK 2.00 per share (the "Directed Share Issue") based on the accelerated bookbuilding procedure completed by Pareto Securities AB ("Pareto Securities" or the "Manager"). The subscription price for the shares in the Directed Share Issue has been determined through the accelerated bookbuilding procedure. The Directed Share Issue was heavily oversubscribed. Through the Directed Share Issue, Enviro will receive proceeds amounting to SEK 300 million before deduction of costs related to the Directed Share Issue. A number of new Swedish and international institutional investors, including Cicero Fonder, Coeli Circulus, Handelsbanken Fonder, Skandia and Öhman Fonder, participated in the Directed Share Issue.

"I am very pleased with today's transaction, another milestone achieved, and a token of Enviro's ability to attract several high-quality institutional investors supporting our investment case. We now have the financial flexibility allowing us to accelerate the pan-European expansion of tire recycling plants, together with our joint venture partners, while focusing on our core competencies, and continue our journey towards making the tire industry circular", says Alf Blomqvist, Chairman.

Summary of the Directed Share Issue

- The subscription price in the Directed Share Issue amounts to SEK 2.00 per share and has been determined through an accelerated bookbuilding procedure carried out by Pareto Securities.
- Through the Directed Share Issue, Enviro will receive proceeds amounting to SEK 300 million, before deduction of costs related to the Directed Share Issue.
- The Directed Share Issue was subscribed for by a number of new Swedish and international institutional investors, including Cicero Fonder, Coeli Circulus, Handelsbanken Fonder, Skandia and Öhman Fonder.
- Through the Directed Share Issue, the number of shares in the Company will increase by 150,000,000 from 656,615,589 to 806,615,589 and the share capital will increase by SEK 6,000,000 from SEK 26,264,623.56 to SEK 32,264,623.56.

The Directed Share Issue

Scandinavian Enviro Systems contributes to enhanced environmental and economic sustainability using a patented technology for the recovery of valuable raw materials from scrapped and end-of-life products, including tires. The production of new tires using carbon black recovered with Enviro's technology reduces carbon dioxide emissions by up to 93 per cent compared with the use of virgin carbon black. Enviro has its head office in Gothenburg and a plant for the recycling of end-of-life tires in Åsensbruk. The largest owner is the French tire manufacturer Michelin. Enviro was founded in 2001 and is listed on Nasdaq First North Growth Market.

May 5 2023

The Board of Directors of Enviro has, based on the authorization granted at the annual general meeting held on 19 May 2022, resolved on the Directed Share Issue which was directed to Swedish and international institutional, and other qualified, investors. The Directed Share Issue comprises 150,000,000 new shares at a subscription price of SEK 2.00 per share and the Company will hereby receive SEK 300 million before deduction of costs related to the Directed Share Issue.

The subscription price has been determined through an accelerated bookbuilding procedure and corresponds to a discount of approximately 8.3 percent compared to the closing price of the Company's share on Nasdaq First North Growth Market Stockholm on 4 May 2023. The Board of Directors' assessment is that the subscription price is based on market terms since it has been determined through Pareto Securities' bookbuilding procedure.

The background to the Directed Share Issue is the Company's previously announced joint venture with Antin Infrastructure Partners, supported by Michelin, to create the world's first large-scale tire recycling group, and the Company's option to acquire up to 30 percent of the capital and the votes in the JV-company during a certain period and at certain terms. Enviro has the ambition to own 30 percent of shares in the JV-company, providing financing pro rata for any equity needed in the JV-company. The Board of Directors has deemed it crucial that the Company can secure its financing in the short and medium term to enable long-term value creation through its ownership in the JV-company. Thus, Enviro intends to use the net proceeds from the Directed Share Issue to (i) acquire shares in the JV-company and thereby, together with Antin Infrastructure Partners, finance the first plant at Uddevalla (approximately 75 percent of the net proceeds), and (ii) finance the Company's operations for at least 24 months (approximately 25 percent of the net proceeds).

The Board of Directors has against the background described above considered various financing alternatives and concludes that the alternative which allows the Company to meet its financing needs is a new issue of shares with deviation from the shareholders' preferential rights. The Board of Directors further concludes that it is beneficial for the Company to increase its institutional shareholder base and that an increased liquidity in the Company's share is desirable. The Board of Directors' overall assessment is that the reasons for issuing shares with deviation from the shareholders' preferential rights outweighs the reasons for the main rule that new issues shall be conducted with preferential rights for the shareholders. A new issue of shares with deviation from the shareholders' preferential rights is thus in line with the Company's and all shareholders' interests.

Through the Directed Share Issue, the number of shares in the Company will increase by 150,000,000 from 656,615,589 to 806,615,589 and the share capital will increase by SEK 6,000,000 from SEK 26,264,623.56 to SEK 32,264,623.56. The Directed Share Issue entails a dilution of approximately 18.6 percent based on the total number of shares in Enviro after the Directed Share Issue.

Undertakings

In connection with the Directed Share Issue, the Company has undertaken, with customary exceptions, not to issue additional shares for a period of six months after the announcement of the outcome in the Directed Share Issue. All of the Company's board members and senior executives have undertaken, with customary exceptions, not to sell or in other ways dispose their

Forward-looking statements

This press release contains forward-looking statements that reflect the Company's intentions, beliefs, or current expectations about and targets for the Company's future results of operations, financial condition, liquidity, performance, prospects, anticipated growth, strategies and opportunities and the markets in which the Company operates. Forward-looking statements are statements that are not historical facts and may be identified by words such as "believe", "expect", "anticipate", "intend", "may", "plan", "estimate", "will", "should", "could", "aim" or "might", or, in each case, their negative, or similar expressions. The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions. Although the Company believes that the expectations reflected in these forward-looking statements are reasonable, it can give no assurances that they will materialize or prove to be correct. Because these statements are based on assumptions or estimates and are subject to risks and uncertainties, the actual results or outcome could differ materially from those set out in the forward-looking statements as a result of many factors. Such risks, uncertainties, contingencies and other important factors could cause actual events to differ materially from the expectations expressed or implied in this release by such forward-looking statements. The Company does not guarantee that the assumptions underlying the forward-looking statements in this press release are free from errors and readers of this press release should not place undue reliance on the forward-looking statements in this press release. The information, opinions and forward-looking statements that are expressly or implicitly contained herein speak only as of its date and are subject to change without notice. Neither the Company nor anyone else undertake to review, update, confirm or to release publicly any revisions to any forward-looking statements to reflect events that occur or circumstances that arise in relation to the content of this press release, unless this is required under law or Nasdaq First North Growth Market Stockholm's rulebook for issuers.

Information to distributors

*Solely for the purposes of the product governance requirements contained within: (a) EU Directive 2014/65/EU on markets in financial instruments, as amended ("**MiFID II**"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593 supplementing MiFID II; and (c) local implementing measures (together, the "**MiFID II Product Governance Requirements**"), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any "manufacturer" (for the purposes of the MiFID II Product Governance Requirements) may otherwise have with respect thereto, the shares in Enviro have been subject to a product approval process, which has determined that such shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in MiFID II; and (ii) eligible for distribution through all distribution channels as are permitted by MiFID II (the "**Target Market Assessment**"). Notwithstanding the Target Market Assessment, Distributors should note that: the price of the shares in Enviro may decline and investors could lose all or part of their investment; the shares in Enviro offer no guaranteed income and no capital protection; and an investment in the shares in Enviro is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Directed Share issue. Thereto,*
