

StaySharp™ Reel Mower

Eco-friendly lawn mowing is easier than ever with an advanced reel mower that's 60% easier to push than standard reel mowers without gas, oil, charging or cords required.

Cuts All Types of Grass

- Ideal for eco-friendly cutting of all grass types, even tough southern varieties like St. Augustine, Zoysia, Bahia, and Bermuda

More Cutting Power

- Reel delivers twice the cutting power to glide through tough spots that would jam other reel mowers

StaySharp™ Cutting System

- Cuts without unwanted contact, reducing wear for long-lasting performance without costly annual blade sharpening

High-Performance Design

- Reversible grass chute can direct clippings forward, away from your feet, or backward and downward, making it easier to mow tough patches while limiting messiness
- New, improved durability in front wheels

Superior Range of Cut & Maximum Cut Height

- Cut-height settings range from 1" - 4", plus one-touch height adjustment
- Inset wheels allow blades to extend across mower's full width, eliminating uncut strips and edges near foundations and fences
- 18" cut width

Limited 3-Year Warranty
