

# Storm Amy in October 2025 – a tough reminder of climate changes

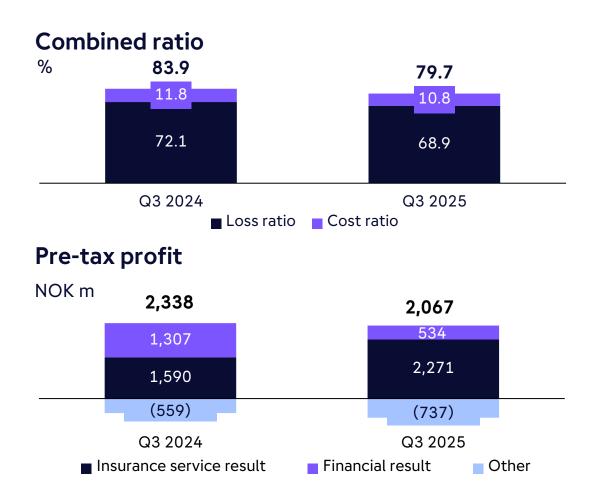

- Primary focus on customer assistance and managing high inquiry volumes
  - Rapid mobilisation and efficient cross-functional coordination
- Industry-wide natural perils losses in Norway estimated at NOK 1.5-2.1bn (excluding losses outside scheme)
- Gjensidige's total claims cost related to 'Amy' in Q4 2025 estimated at NOK 400m, net of reinsurance and reinstatement premium

# Higher general insurance service result, profit impacted by a non-recurring expense for Pension

- Pre-tax profit NOK 2,067m
- Insurance service result NOK 2,271m
  - 11.3% insurance revenue growth (adjusted for non-recurring effect in Private Norway, local currency)
  - Effective pricing measures
  - Improved underlying frequency loss ratio
  - Continued good cost control
- Non-recurring expense in Pension of NOK 429m
- Financial result NOK 534m, return 0.8%
- Return on equity 29.6%<sup>1</sup>
- Solvency ratio 191%

# Property and motor, Private Norway: Continued implementation of pricing measures

#### **Property, Private Norway**

#### **Claims frequency**

Q3'25/Q3'24: **+5%** (inherent volatility)

#### **Claims inflation (repair cost)**

Q3'25/Q3'24: **+4.0%** 

Expectation for next 12-18 months: 3-5%

#### Implementing targeted measures

#### Average premiums continue to rise

#### Average premium in force, per unit

- End Q3'25/end Q3'24: +15.8%
- Ongoing pricing measures at +12.5% implemented from October 2025

#### **Motor, Private Norway**

#### **Claims frequency**

Q3'25/Q3'24: **+4%** (+1-2% underlying, adjusted for elevated claims in July 2025)

#### Claims inflation (repair cost)

Q3'25/Q3'24: **+4.4%** 

Expectation for next 12-18 months: 3-6%

#### Implementing targeted measures

#### Average premiums continue to rise

#### Average premium in force, per unit

- End Q3'25/end Q3'24: **+18.6%**
- Ongoing pricing measures at +13.0% implemented from October 2025

# Sustained growth and enhanced operational efficiency

**Norway**: Strong performance, driven by sustained revenue growth

- Maintained high competitiveness
- Efficient operations
- Continued focus on improving profitability

**Denmark**: Progress for the private portfolio; the commercial portfolio impacted by inherent variability

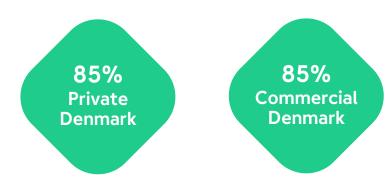

- Solid revenue growth and strong focus on operational efficiency
- Improved customer retention

**Sweden**: Ongoing improvement through consistent operational efficiency efforts

#### Maintaining high retention in Norway

#### **Good retention in Denmark**

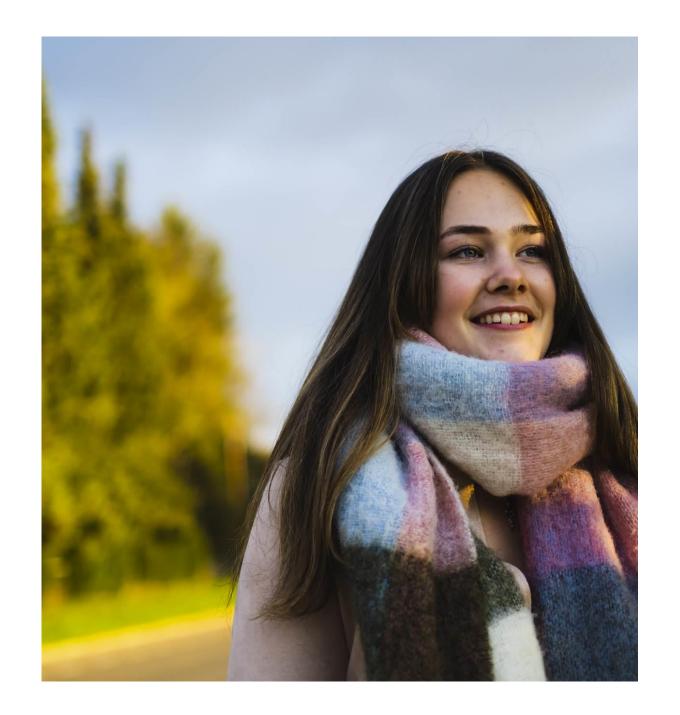

# Moving forward with sustainability initiatives

- Participated in and funded research with NIVA and Akvaplanniva on environmental risks of land-based fish farming in Norway
- Added climate adaptation measures to Danish home insurance, aligned with EU taxonomy
- Skadestop reduced transport sector damage in Denmark through incident analysis and counselling
- Financial counselling for Norwegian farmers gaining traction, especially among younger clients

#### Ratings and recognitions:

Gjensidige Pension named this year's top climber in Söderberg
 Partners' 2025 Sustainability Survey

# Financial performance

# Significant improvement in the insurance service result; pension impacted by non-recurring expense

NOKm	Q3 2025	Q3 2024	YTD 2025	YTD 2024
Private	1,114	769	2,850	1,885
Commercial	1,359	1,080	3,630	2,450
Sweden	117	85	265	189
Corporate Centre	(320)	(344)	(959)	(807)
Insurance service result	2,271	1,590	5,785	3,717
Pension	(414)	124	(136)	461
Net financial result	441	741	1,581	1,439
Other items	(230)	(117)	(488)	(399)
Profit before tax, continuing operations	2,067	2,338	6,741	5,218
Profit, discontinued operations	41	(91)	132	(66)

- Increased insurance service result reflecting revenue growth and improvement in the loss ratio
- Pension result affected by non-recurring expense of NOK 429m
- Financial result reflects positive return from all asset classes
- Other items lower, mainly reflecting transfer of profit on natural perils insurance to natural perils pool and provisions

# 13.3 per cent revenue growth; 11.3 per cent adjusted for non-recurring effect in Private Norway (local currency)

#### Insurance revenue development

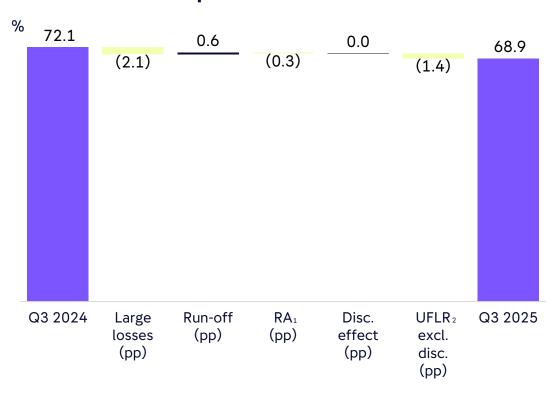

Segment	NOK	Local currency	Driver
Private	22.1%	22.1%	Mainly price
- Norway	23.8%	23.8% (18.6% excl. non-recurring item)	Mainly price
- Denmark	14.3%	13.9%	Volume and price
Commercial	8.0%	7.9%	Mainly Price
- Norway	9.7%	9.7%	Price
- Denmark	4.7%	4.4%	Price and volume
Sweden	6.0%	2.7%	Price

# Improved loss ratio

#### Loss ratio development

#### **Key drivers**

- Effective pricing measures across all segments
- Improved underlying frequency loss ratio
- Lower large losses and run-off gains
- Positive impact from change in risk adjustment

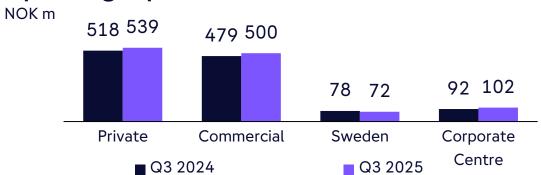

<sup>1)</sup> Risk adjustment.

<sup>2)</sup> Underlying frequency loss ratio.

# Continued good cost control – cost ratio 10.8 per cent

#### **Operating expenses**

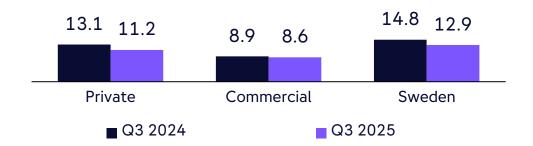

#### Competitive cost ratio

- Efficient operations
- High revenue growth
- Continued strong cost discipline across the Group

#### **Cost ratios**

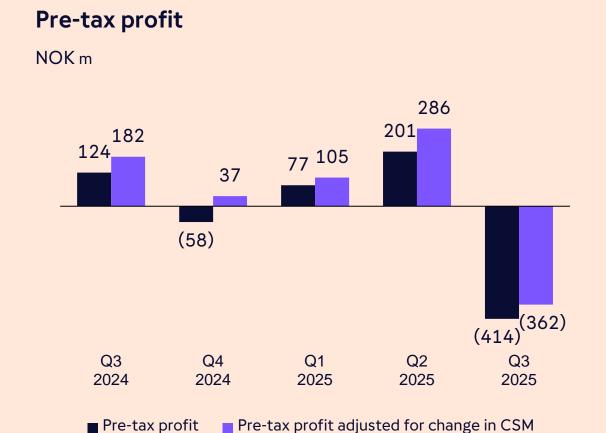

%

# Pension result impacted by non-recurring expense of

#### Assets under management

NOK bn

### Investment return of 0.8 per cent

#### Investment return per asset class

#### Balanced investment portfolio<sup>1</sup>

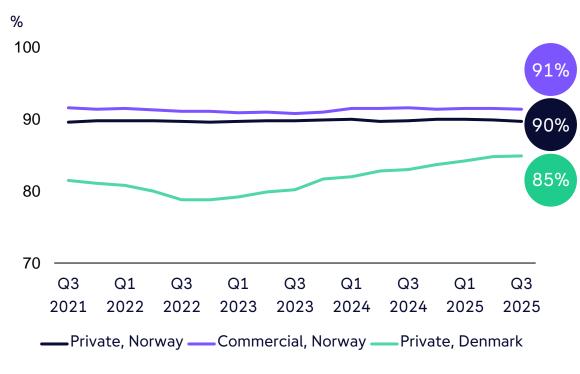

<sup>1)</sup> As at 30.09.2025. Gjensidige Forsikring Group 13

# Moving ahead on operational targets

Metric	Status Q3 2025	Target 2026
Customer satisfaction (Group¹)	77	> 78
Customer retention	91%	> 90%
(Norway/Outside Norway <sup>1</sup> )	84%	> 85%
Digital distribution index (Group <sup>1</sup> )	+12%	> +5-10% annually
Distribution efficiency (Private)	+24%	+25%
Digital claims reporting (Group¹)	79%	> 85%
Automated claims processing (Norway)	66%	> 70%

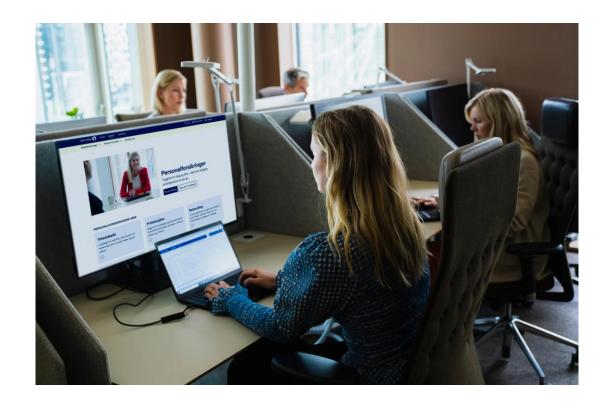

# High customer retention in Norway, improvement in Private Denmark

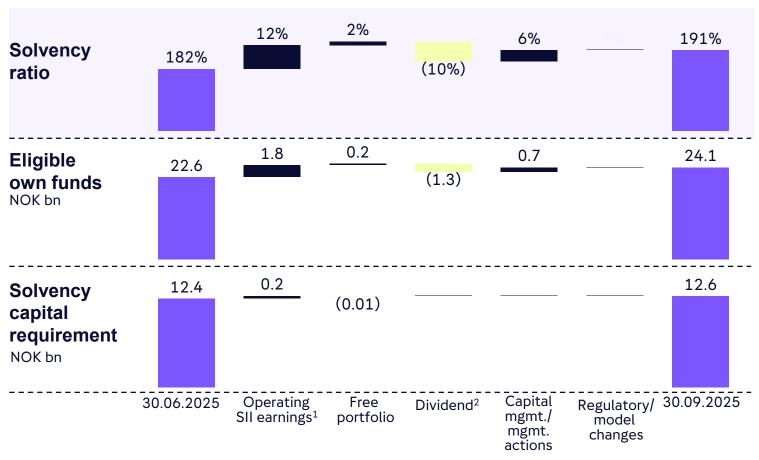

# Securing an optimal capital base - successful launch of T1 and buy-back

- Significantly oversubscribed Restricted Tier 1 bond issue
  - Amount: NOK 1,200m
  - Rate: 3 months NIBOR + 2.15% p.a.
  - Maturity: perpetuity
- Buy-back in outstanding Tier 1 bond GJF04
  - Amount: NOK 487m
  - Outstanding amount after buy-back: NOK 713m

# Strong capital position

#### Eligible own funds

- Contribution from operating SII earnings and result in free portfolio
- Deduction of formulaic dividend
- Contribution from T2 bond issued in Oct. 2024: ~ NOK 520m. Expect full effect of Tier 2 bonds over time.
- T1 capital increased by NOK 0.7 billion during the quarter following bond issue and buy-backs

#### Capital requirement

Increased with growth in pension business

<sup>2)</sup> 80% payout ratio according to dividend policy for the accounting year 2025.

<sup>1)</sup> Operating SII earnings comprise SII underwriting result and SII financial result of the match portfolio after tax.

# Concluding remarks

- Strong growth momentum and improved underlying profitability
- Continued focus on ongoing measures and good cost control
- Solid capital position
- Good trajectory to deliver on financial targets

#### Ambitious annual financial targets

# Norwegian Natural Perils Pool in brief

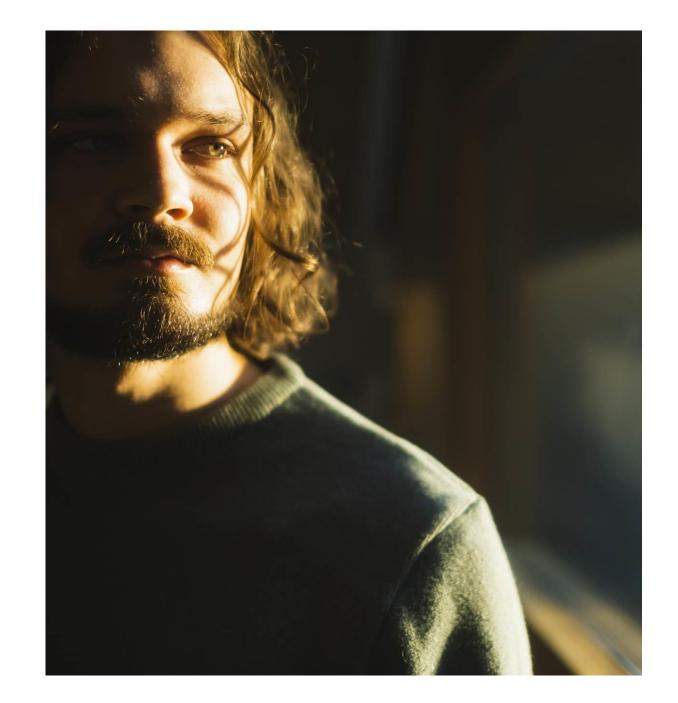

- Natural perils insurance is a compulsory cover linked to fire insurance in Norway. All insurance companies providing fire insurance in Norway must be members of the pool. Fire insurance coverage for buildings and contents in Norway includes coverage for certain types of natural catastrophe events (premium 0.08 per thousand of the fire insurance premium as of 1 January 2025).
- Maximum compensation per event for natural perils damages covered by this pool arrangement is NOK 16,000m. It does not cover loss of profits, motor vehicles, leisure boats, and certain other items, which are covered through ordinary insurances by the individual insurance companies.
- Premiums are collected and claims are reported to the insurance companies, which handle the claims and settlement.
- New regulation effective from January 2025 stipulates that the Natural Perils Pool shall build a national
  natural perils fund based on the individual insurance companies' profits on the natural perils scheme. Prior
  to this new regulation, the individual companies retained their profits on the scheme as natural perils
  capital, part of IFRS Equity. This transfer of profit from the companies to the new fund will continue until
  the fund has reached a target level. For companies with accumulated natural perils capital, the
  companies' share of losses on the natural perils scheme will be carried by the individual companies as
  before until the fund has reached the target level.

### Reinsurance 2025

- Reinsurance is purchased for protection of the Gjensidige Group's capital position and is primarily a capital management tool.
- General retention level per loss/loss occurrence is NOK/DKK/SEK 100m (for the first loss the retention is NOK/SEK 200m and DKK 100m).
- Gjensidige's total claims related to natural peril events are covered by Gjensidige's catastrophe reinsurance programme. For weather-related events the retention level is NOK/SEK 300m and DKK 200m.
- Gjensidige considers additional coverage at lower levels if this is appropriate according to internal modelling and market conditions.

ļ

Gjensidige's recognised claims cost, irrelevant of the size of the claim, is generally capped at the retention levels showed above.

## Investment strategy supporting high and stable nominal dividends

#### Match portfolio

- Duration and currency matching versus technical provisions
- Credit element for increased returns
- Some inflation hedging

### Free portfolio

- Focused on absolute returns
- Dynamic risk management
- Active management fixed income and equities
- Normal risk premiums basis for asset allocation and use of capital

#### **Key characteristics**

- Limited risk appetite
- Fixed-income:
  - Currency hedging vs NOK ~ 100%
    - Limit +/- 10% per currency
- Equity and PE funds:
  - Currency hedging 0-100%
- Fair value recognition
- Stable performance

## Investment portfolio

Surplus	11.5	12.5
Solvency ratio	191%	215%

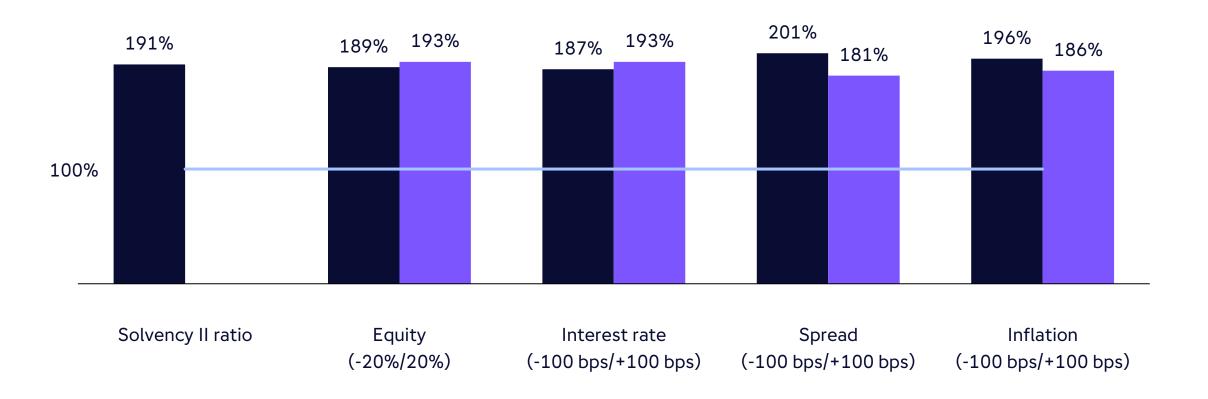

#### Main differences between approved and own PIM

- Correlation between market risk and underwriting risk: Approved PIM based on standard formula. Own PIM takes account of dependencies between underwriting risk and market risk through common exposure to interest rates, inflation rates and currency rates.
- Prudential margin: Approved PIM includes general prudential margins for both market risk and underwriting risk.
- Capital requirement for some lines of business within underwriting risk

Figures as at 30.09.2025.

<sup>1)</sup> Most of non-life and health underwriting risk and market risk related to the non-life and health insurance business is internally modelled. The standard formula is used for other risks

Gjensidige Forsikring provides alternative performance measures (APMs) in the financial reports, in addition to the financial figures prepared in accordance with the International Financial Reporting Standards (IFRS). The measures are not defined in IFRS (International Financial Report Standards) and are not necessarily directly comparable to other companies' performance measures. The APMs are not intended to be a substitute for, or superior to, any IFRS measures of performance, but have been included to provide insight into Gjensidige's performance and represent important measures for how management governs the Group and its business activities. Key figures that are regulated by IFRS or other legislation, as well as non-financial information, are not regarded as APMs. Gjensidige's APMs are presented in the quarterly report and presentation. All APMs are presented with comparable figures for earlier periods. The APMs have generally been used consistently over time. Definitions and calculations can be found at www.gjensidige.com/investor-relations/reports-and-presentations.
